OUR MISSION

At Generations Village, it is our belief that the lives of foster children, foster parents, and senior adults can be enhanced in a safe, secure, and caring community where everyone's abilities and interests are supported, valued and appreciated.

Residents of Generations Village will have the opportunity to live, work, and play in a village setting that promotes casual neighboring on the walking trails or basketball court, at the playground, in the picnic pavilion, and at the community center.

OUR VISION

The Generations Village community concept consists of 12 foster homes with 3-4 bedrooms each, 36 senior units with 2-3 bedrooms each, and a variety of amenities including a community center, walking trails, picnic pavilion, playground, community garden, and security features to ensure the safety of our residents.

We are partnering with **Trinity Housing Development** to bring this concept to life in Southwest Missouri.
