Missouri Department of Social Services Mission Statement

To maintain or improve the quality of life for Missouri citizens.

Working with you in protecting Missouri's children.

Our Vision:

Safety, permanency, well being and equity for every Missouri child!

Our Mission:

To protect Missouri children from abuse and neglect; assuring their safety and well being by partnering with families, communities and government in an ethically, culturally and socially responsible manner.

Our Guiding Principles:

PREVENTION - Families are supported through proactive, intentional activities that promote positive child development and prevent abuse and neglect.

PROTECTION - Children have a right to be safe and live free from abuse and neglect.

PRESERVATION - The cultural and ethnic diversity of the children and families of Missouri are recognized, honored and respected.

PARTNERSHIP - Families, communities and government share the responsibility to create safe, nurturing environments for families to raise their children.

PRACTICE - The family is the basic building block of society and is irreplaceable. Families are empowered to identify and access services that support, preserve and strengthen their functioning.

PERMANENCY - Children are entitled to enduring, nurturing relationships that provide stability and belonging through family and community connections.

PROFESSIONALISM - Staff are valued, respected and supported throughout their career, and in turn provide quality service with value, respect and support for families.

ERIC R. GREITENS, GOVERNOR • STEVE CORSI, Psy.D., DIRECTOR

TIM DECKER, DIRECTOR
CHILDREN'S DIVISION
P.O. BOX 88 • JEFFERSON CITY, MO 65103-0088

Dear Friends and Colleagues:

Thank you for your interest and concern regarding child abuse and neglect in Missouri. This report contains information regarding reports and referrals to the Child Abuse and Neglect Hotline during Fiscal Year 2017, including the substantiation status of the reports and the number of children and families served by a program within the Missouri Children's Division.

Additionally, the report includes a description of Missouri's unique multipleresponse system to responding to child abuse and neglect reports. For over ten years, the Children's Division has worked to enhance our family-centered, community-based practice through the use of family assessments.

As evident in this report, there is a continued need for strong community support for Missouri's children and families. Through ongoing support of community partners, such as you, we are able to strengthen Missouri's child protection system, reinforce safety networks, and enhance the well-being of children and families.

Sincerely,

Tim Decker Director

Introduction

This report compiles data collected by the Missouri Department of Social Services (DSS), Children's Division (CD), in the course of Child Abuse and/or Neglect (CA/N) investigations/assessments during the fiscal year, July 1, 2016 through June 30, 2017. As a result of pending investigations or changes in conclusions, the data is prone to change. The data reported is current as of November 2017.

The Child Abuse/Neglect Hotline Unit (CANHU) accepts confidential reports of suspected child abuse, neglect, or exploitation. Missouri's toll-free number for reporting child abuse/neglect is **1-800-392-3738**. Mandated reporters can also report online at http://dss.mo.gov/cd/can.htm.

The CANHU is operated year-round on a 24 hours per day, seven days per week basis. During FY 2017, it was staffed by 42 full-time and 10 part-time trained and experienced Children's Service Workers. A call to the hotline is referred to as a "report" or "reported incident" of child abuse/neglect. A report may involve from one to several children. Over the course of the fiscal year, the hotline had received over 68,000 reported incidents that involved over 98,000 children in Missouri.

When a call is received at the CANHU, information is analyzed to determine whether:

- the child is under age 18;
- the alleged perpetrator has care, custody and control of the child;
- the report meets the legal definition of abuse and/or neglect as stipulated in 210.110, RSMo (see Appendix I definitions).

After a report of suspected abuse, neglect, or exploitation has been made to the hotline, the information is forwarded electronically to one of the 114 county offices or the St. Louis City office for either investigation or assessment. A report indicating behavior that may constitute a criminal violation is screened as an investigation and law enforcement is contacted to co-investigate. Reports of child abuse/neglect that do not appear to be of a criminal nature may be responded to as a family assessment, where resources or services may be offered to the families to help prevent abuse or to meet a family's specific need. During FY 2017, thirty-nine percent (39.4%) of reports were assigned as investigation and sixty-one percent (60.6%) as family assessments.

Investigations/assessments must be initiated within 24 hours, or immediately when it is determined that the child is in imminent danger. When the only allegation is educational neglect, or the allegation is an old allegation and the child is protected, an investigation/assessment must be initiated within 72 hours. Per legislation, the number of days Children's Service Workers have to complete their investigations changed from 30 to 45 days August 28, 2014.

At the end of each child abuse/neglect investigation/assessment, the Children's Service Worker reaches a conclusion. Of the 98,270 children with reports in FY 2017, 5,141 or five percent (5.2%), were substantiated as abused/neglected.

Introduction

As of August 28, 2015, CD utilizes a family assessment and services approach when reports are received that contain concerns of children with problem sexual behaviors. These reports are screened by CANHU when any child under the age of fourteen is alleged to have committed an act of sexual abuse against any person under the age of eighteen. During FY 2017, there were 3,680 juvenile reports made. The information contained within this report focuses primarily on investigations and traditional family assessments. For information regarding juvenile reports, see Appendix I.

Reports

Reports to the Child Abuse/Neglect Hotline

Over the past fiscal year, the CANHU received 129,807* reports. Of those reports, 68,014 were classified as Investigations or Assessments and were completed by the Children's Division. A total of 98,270 children** were involved in the investigations/assessments.

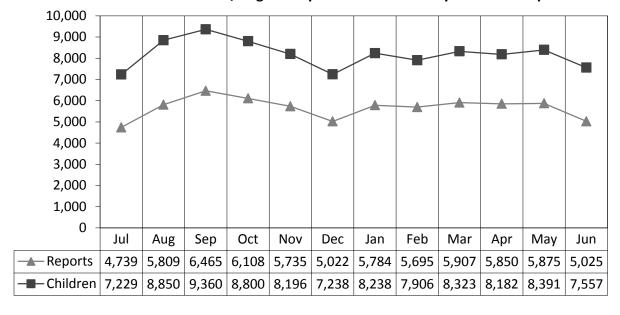

Incidents and Children Reported to the Child Abuse/Neglect Hotline

	Total	Annual	Total	Annual
Year	Reports	Change	Change Children**	
2013	61,765		91,812	
2014	68,234	10.5%	102,100	11.2%
2015	68,623	0.6%	100,625	-1.4%
2016	72,388	5.5%	106,067	5.4%
2017	68,014	-6.0%	98,270	-7.4%

^{*}Data provided by CANHU.

Reports fluctuated by month during the year. September had the highest number, and July the least, of both reported incidents and children of completed investigations by the Children's Division. Each month, an average of 5,668 reports involving 8,189 children were made during FY 2017.

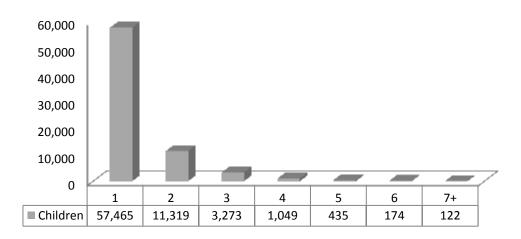

FY 2017 Child Abuse/Neglect Reports and Children by Month of Report

^{**} All counts of children are duplicated because a child may be reported more than once during the year. Total reports include only reports with a Type of Response of Investigation or Assessment and completed by field staff. Other CANHU reports requiring staff attention or action but do not meet the requirement for Investigation or Assessment are not included in the overall count.

Reports

A child may be reported as an alleged victim more than once during the year. In FY 2017, a total of 73,837 children had been involved in one or more reports. Over three-fourths of children (77.8%) had been reported only once; fifteen percent (15.3%) were involved in two reports. Seven percent (6.8%) were involved in more than two reports.

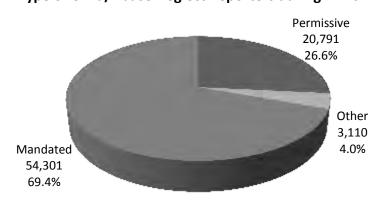

Number of Reported Incidents Per Child during FY 2017

Reporters

Reports of child abuse/neglect can be made by persons who are either "mandated" or "permissive" reporters. Mandated reporters are required by state statute to report abuse/neglect when they have reasonable cause to suspect a child has been or is being abused or neglected. Mandated reporters include, but are not limited to, health and education professionals, social workers and foster parents. Permissive reporters, such as relatives or neighbors, are not required to report suspected abuse/neglect.

More than one reporter may be involved in a report to the hotline. Over two-thirds of reporters during FY 2017 were mandated reporters and one-fourth were permissive reporters.

Type of Child/Abuse Neglect Reporters during FY 2017

Reports

Mandated reporters were more often in the occupations of school principal/official, social worker or peace officer/law enforcement official.

Reporters of Child Abuse/Neglect during FY 2017 by Occupation

	Number	Percent
Permissive	20,791	26.6%
Principal or other school official	13,486	17.2%
Social Worker	9,865	12.6%
Peace Officer or Law Enforcement Official	9,723	12.4%
Nurse	4,564	5.8%
Mental Health Professional	4,440	5.7%
Teacher	4,274	5.5%
Unknown	3,110	4.0%
Other Person with Responsibility for Care of Children	2,812	3.6%
Physician	1,000	1.3%
Juvenile Officer	890	1.1%
Children's Division Worker	707	0.9%
Day Care	612	0.8%
Psychologist	436	0.6%
Other Health Practitioner	427	0.5%
Other Hospital/Clinic Personnel	359	0.5%
Intern	199	0.3%
Probation Officer or Parole Officer	166	0.2%
Minister	135	0.2%
Medical Examiner	66	0.1%
Coroner	26	0.0%
Dentist/Dental Hygienist	43	0.1%
Jail/Detention Personnel	28	0.0%
Resident	36	0.0%
Optometrist	3	0.0%
Chiropractor	4	0.0%

Note: Reporters exceed reports because more than one person may report an incident.

Missouri's Child Protection Services system culminated from a collaborative effort between the Children's Division, elected officials, community organizations and private citizens. Senate Bill 595 (SB 595) was signed into law in 1994 and expanded statewide in 1998. The primary focus of SB 595 is to protect children from abuse/neglect in the least disruptive and intrusive way, that recognizes the value of the family. In addition, the child's protection is provided in the most efficient and effective manner possible within the framework of state, community, and family resources.

When a child abuse/neglect report is received, it is screened to determine the appropriate intervention method. If behaviors that constitute a criminal violation are indicated, the response to the report is a fact-finding investigation and the appropriate local law enforcement agency is notified to assist. The response for remaining reports is a Family Assessment of which the main purpose is to determine the child's safety and the family's need for services. Both investigated families and those who receive the Family Assessment response receive prompt and effective delivery of services in order to address their needs.

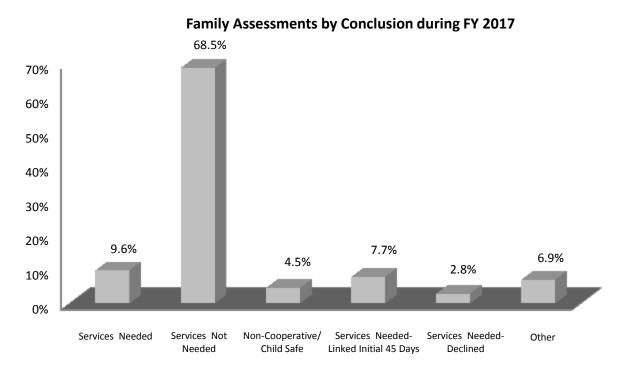

Of the reports received in FY 2017, sixty percent (60.6%) were initially assigned as Family Assessments and thirty-nine percent (39.4%) as Investigations.

FY 2017 Reports by Type of Response

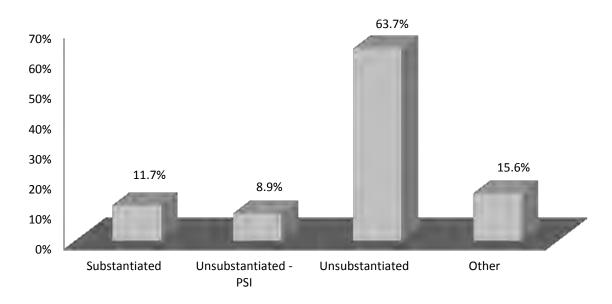

In FY 2017, 4,441 reports initially assigned as either Family Assessments or Investigations involved being unable to locate the family, the family was located out of state, or the report was inappropriate or already had been investigated. Therefore, the conclusion was categorized as Other.

Of all reports assigned as Family Assessments, the majority (68.5%) did not need services. Services were identified as needed, needed but declined or needed-linked initial 45 days for twenty percent (20.1%).

Of the 26,791 reports initially assigned as investigations, twelve percent (11.7%) were substantiated while the majority (63.7%) were unsubstantiated.

Investigations by Conclusion during FY 2017

Observed Family Characteristics

Children's Service Workers may designate up to fifteen **Observed Family Characteristics** during each family assessment/investigation. Services and supports for families are designed to build on the strengths and resources of the families and communities.

A third of families assigned as Family Assessment had extended family support systems (35.5%) and adequate living conditions (34.7%). Almost one-fourth had community/cultural support (22.8%). Following are the top 25 observed characteristics.

Characteristics of Families Involved in Family Assessments during FY 2017

	Number	Percent
Extended family support system	14,620	35.5%
Adequate living conditions	14,314	34.7%
Community/Cultural support	9,416	22.8%
Amenable to services	8,662	21.0%
Single parent household	8,463	20.5%
Appropriate child development knowledge	5,516	13.4%
Appropriate parenting skills	5,364	13.0%
Problem solving skills	3,928	9.5%
Stable family relationships/household	3,795	9.2%
Good physical/mental health	3,528	8.6%
Manages finances well	2,557	6.2%
Stable marriage	2,162	5.2%
No history of violence	2,055	5.0%
Other drug related problems	2,053	5.0%
Lack of parenting skills	1,904	4.6%
Recent/frequent location	1,484	3.6%
Domestic violence	1,322	3.2%
Insufficient/misuse of income	1,296	3.1%
Heavy continuous childcare responsibility	1,101	2.7%
Recent loss/addition to household members	1,033	2.5%
New baby in home/pregnancy	976	2.4%
Positive childhood experiences	857	2.1%
Crowded living conditions	844	2.0%
Marital problems	803	1.9%
Loss of employment	690	1.7%

Percent is the percentage of 41,223 reports assigned to the Family Assessment approach. Percent total is greater than 100 because up to 15 family characteristics may be reported for each Family Assessment.

The characteristics of families involved in investigations are similar to families assessed. Around a third of families had extended family support systems (34.2%) and adequate living conditions (32.2%). Other common characteristics were amenable to services, community/cultural support, and single parent household. Below are the top 25 observed characteristics.

Characteristics of Families Involved in Investigations during FY 2017

	Number	Percent
Extended family support system	9,170	34.2%
Adequate living conditions	8,638	32.2%
Amenable to services	5,827	21.7%
Community/Cultural support	5,756	21.5%
Single parent household	4,777	17.8%
Appropriate child development knowledge	3,171	11.8%
Appropriate parenting skills	3,140	11.7%
Good physical/mental health	2,115	7.9%
Stable family relationships/household	2,094	7.8%
Problem solving skills	1,990	7.4%
Lack of parenting skills	1,418	5.3%
Manages finances well	1,383	5.2%
Other drug related problem(s)	1,313	4.9%
Stable marriage	1,275	4.8%
No history of violence	1,166	4.4%
Domestic violence	927	3.5%
Recent/Frequent relocation	813	3.0%
Heavy continuous child care responsibility	720	2.7%
New baby in home/pregnancy	651	2.4%
Insufficient/Misuse of income	638	2.4%
Recent loss/addition to household members	636	2.4%
Positive childhood experiences	631	2.4%
Marital problems	501	1.9%
Crowded living conditions	421	1.6%
Alcohol related problem(s)	410	1.5%

Percent is the percentage of 26,791 reports assigned as an investigation. Percent total is greater than 100 because up to 15 family characteristics may be reported for each investigation.

Children's Service Workers investigate/assess each report to determine if abuse/neglect is occurring or has occurred and evaluate the family's need for services. Thorough investigations/assessments require hours of interviews and information collection, and usually include the following major steps.

- Contacting the reporter, if known, for additional information before proceeding with the investigation;
- Contacting appropriate law enforcement personnel or multidisciplinary team members to request a co-investigation if the alleged report, if true, would constitute a violation of the law;
- Making a determination regarding the safety of the children within 24 hours, or immediately if deemed as an emergency;
- Contacting the School District Liaison when the victim in the child abuse/neglect report is school-aged;
- Determining the safety of all other children in the household within 72 hours;
- Consulting with the Chief Investigator within 72 hours;
- Contacting collateral persons;
- Interviewing witnesses;
- Interviewing the non-offending parent;
- Interviewing the alleged perpetrator(s);
- Evaluating and documenting all information collected and observed;
- Determining whether abuse/neglect has occurred or is occurring;
- Evaluating the family's need for services and making appropriate referrals for needed services;
- Notifying the child's parent(s), alleged perpetrator and, if applicable, school district liaison and the mandated reporter of the report conclusion and related findings.

CD policy requires completion of investigations/assessments within 45 days. Upon completion of the investigation/assessment, a report may be concluded as Substantiated, Unsubstantiated-Preventive Services Indicated (PSI), Unsubstantiated, or Family Assessment.

Substantiated: A finding that a preponderance of evidence exists to conclude abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Service Worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the Children's Service Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the Children's Service Worker has not identified a specific threat exists for the child.

Family Assessments are concluded as a need or services is identified, either from CD or the community; as services are not needed; or where the child is safe but the family refuses to participate in the assessment process.

Other conclusions include unable to locate, inappropriate report, located out of state, home schooling, and school investigation by school board. See Appendix I for further definition.

Reported Incidents and Children by Conclusion

Five percent of incidents (5.3%) and of children (5.2%) were concluded as substantiated. Over one-fourth of incidents (28.9%) and of children (28.2%) were found to be unsubstantiated or unsubstantiated PSI.

- Unsub. Unsubstantiated;
- FA Family Assessment: Services Needed, Services Not Needed, Non-cooperative/Child Safe, Services Needed-Linked Initial 45 Days, and Services Needed-Family Declined;
- Other Unable to Locate, Inappropriate Report, Located Out of State, and Home Schooling

Family Assessment Conclusions

Of FY 2017 CANHU reports, the majority were concluded as Family Assessment. The goal of this approach is to assure child safety, address the strengths of the family, and to identify and treat the family's needs.

Reported Incidents and Children by Family Assessment Conclusion

For reports concluded as Family Assessment, services were found to be needed for nine percent (9.1%) of incidents and ten percent (10.2%) of children. The majority were found not to need services, seventy-four percent for incidents (74.3%) and seventy-three percent (73.2%) of children. Less than five percent were non-cooperative. Percentages have remained consistent over the past five years among all categories.

Family Assessment Conclusions

Demographics of Family Assessment Children

During the year, 58,879 children were involved in reports concluded as Family Assessment. Of those, 12,934 children or twenty-two percent (22.0%) were found in need of services.

Based on the children in need of services, those age five and younger were somewhat more likely to fall in the Services Needed category while children over age five were more likely to be classified as Services Needed-Linked Initial 45 days. There were no significant differences for gender among the three classifications. Children classified as white were more likely to need services.

Slightly over half of the children involved in reports concluded as Family Assessment were male (51.7%) while slightly under half were female (48.3%). Nearly three-fourths were white (72.6%) and eighteen percent (18.2%) were black. Seven percent (6.9%) were of Hispanic origin.

Substantiated Children by Category of Abuse/Neglect

During FY 2017, 5,141 children were involved in incidents that were concluded as substantiated for abuse/neglect. When a Children's Service Worker determines there is preponderance of evidence that abuse/neglect has occurred, up to six categories of abuse/neglect can be assigned to each child. Neglect was the most prevalent category assigned during FY 2017 investigations

Substantiated Children by Category of Abuse/Neglect during FY 2017

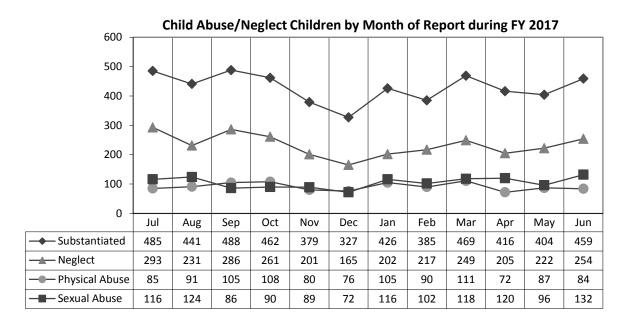

Substantiated Children by Category of Abuse/Neglect during FY 2017

	Number	Percent
Neglect	2,786	54.2%
Sexual Abuse	1,261	24.5%
Physical Abuse	1,094	21.3%
Emotional Abuse	277	5.4%
Medical Neglect	136	2.6%
Educational Neglect	67	1.3%

Percent is the percentage of 5,141 total substantiated children. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Most substantiated incidents were reported in September with 488 children. July saw the highest incidence of neglect (293), March saw the highest incidence of physical abuse (111), and August had the highest incidences of sexual abuse (124). The lowest number of substantiated children was reported in December (327). The lowest occurrences of neglect, physical abuse and sexual abuse were in December (165), April (72) and December (72), for children respectively.

In addition to assigning categories of abuse or neglect, a Children's Service Worker may also describe up to fifty specific findings of abuse. For neglected children, the most frequent worker descriptions are those typically associated with neglect, such as a lack of supervision and unsafe or inadequate shelter. The ten most frequently reported worker findings for neglected children are shown below.

Worker Findings for Neglected Children during FY 2017

	Number	Percent
Lack of Supervision	1,999	71.8%
Unsafe/Inadequate Shelter	721	25.9%
Unsanitary Living Conditions	474	17.0%
Failure to Protect	196	7.0%
Lack of Food	86	3.1%
Blaming, Verbal Abuse, Threatening	73	2.6%
Poor Hygiene (Health Threatening)	60	2.2%
Other Physical Abuse or Injury	56	2.0%
Locking In or Out, Expelling from Home	55	2.0%
Bruises, Welts, Red Marks	49	1.8%

Percent is the percentage of 2,786 substantiated neglected children. Percent total is greater than 100 because multiple findings may be found for a child.

For physically abused children, the most frequently reported worker findings were bruises, welts or red marks along with other abuse or injury and abrasions or lacerations. Lack of supervision was also cited quite often, suggesting that neglect may occur in some abusive situations. The ten most often reported worker findings for physically abused children are shown below.

Worker Findings for Physically Abused Children during FY 2017

	Number	Percent
Bruises, Welts, Red Marks	688	62.9%
Other Physical Abuse or Injury	414	37.8%
Abrasions, Lacerations	175	16.0%
Inappropriately Giving Drugs	113	10.3%
Lack of Supervision	106	9.7%
Wounds, Cuts, Punctures	78	7.1%
Fractures (Other than Skull)	64	5.9%
Blaming, Verbal Abuse, Threatening	55	5.0%
Unsafe/Inadequate Shelter	43	3.9%
Subdural Hemorrhage/Hematoma	27	2.5%

Percent is the percentage of 1,094 substantiated physically abused children. Percent total is greater than 100 because multiple findings may be found for a child.

Fondling or touching was the most frequent worker finding for sexually abused children. The ten most often reported worker findings for sexually abused children are shown below.

Worker Findings for Sexually Abused Children during FY 2017

	Number	Percent
Fondling/Touching	767	60.8%
Other Sexual Abuse	547	43.4%
Oral Sex, Sodomy	256	20.3%
Intercourse	251	19.9%
Digital Penetration	176	14.0%
Pornography	65	5.2%
Inappropriately Giving Drugs	29	2.3%
Blaming, Verbal Abuse, Threatening	28	2.2%
Lack of Supervision	19	1.5%
Sexually Transmitted Disease	13	1.0%

Percent is the percentage of 1,261 substantiated sexually abused children. Percent total is greater than 100 because multiple findings may be found for a child.

Observed Family Characteristics

Information gathered during an investigation of child abuse/neglect can help identify factors which place a child at risk for abuse/neglect. In addition to establishing an investigative conclusion for each child, Children's Service Workers may designate up to four **Observed Family Characteristics** for each reported incident. These characteristics may indicate which services could help prevent the recurrence of abuse/neglect. It is important to note that these are not absolute counts. For instance, a problem with alcohol or other drugs may be difficult to detect during the course of an investigation.

The family characteristics reported in fiscal year 2017 are similar to those reported in prior years. The majority of families involved in substantiated incidents had an extended family support and adequate living conditions. The top twenty family characteristics are listed below.

Characteristics of Families Involved in Substantiated Incidents during FY 2017

	Number	Percent
Extended family support system	1,495	41.3%
Adequate living conditions	1,095	30.2%
Amenable to services	941	26.0%
Single parent household	908	25.1%
Lack of parenting skills	794	21.9%
Community/Cultural support	789	21.8%
Other drug related problem(s)	732	20.2%
Domestic violence	411	11.4%
Appropriate child development knowledge	336	9.3%
Appropriate parenting skills	317	8.8%
Insufficient/misuse of income	273	7.5%
Good physical/mental health	223	6.2%
Dangerous living conditions	221	6.1%
Alcohol related problem(s)	219	6.0%
Recent/Frequent relocation	211	5.8%
Problem solving skills	208	5.7%
Stable family relationships/households	207	5.7%
New baby in home/pregnancy	177	4.9%
Heavy continuous child care responsibility	171	4.7%
Recent loss/addition to household members	168	4.6%

Percent is the percentage of 3,621 total substantiated incidents. Percent total is greater than 100 because up to four family characteristics may be reported for each incident.

Demographics of Substantiated Children

Of the substantiated children during FY 2017, over half (54.4%) were female and forty-six percent (45.6%) were male. Sexually abused children were more likely to be female. Neglect was more prevalent among younger children while sexual abuse occurred more often among children older than age ten.

Child Abuse/Neglect Fatalities

Missouri has a strong capacity to become aware of fatalities resulting from child abuse/neglect. If the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner, or physician are required to notify the division of the child's death. In all other cases, the medical examiner or coroner accepts the report for investigation, immediately notifies the division of the child's death as required under section 58.452, RSMo, and reports the findings to the child fatality review panel established pursuant to section 210.192,RSMo.

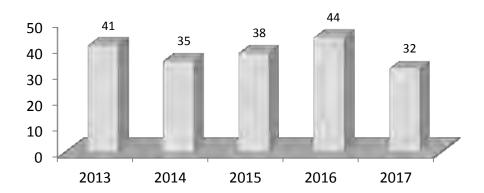

Child Abuse and Neglect fatalities reported by the Children's Division include fatalities of children under the age of 18 for which a report of child abuse and neglect has been received by CANHU and which are classified as substantiated based on a Preponderance of the Evidence evidentiary standard of proof as stipulated in 210.110, RSMo.

In Missouri, there are three entities within state government responsible for child fatality information: Department of Health and Senior Services' Bureau of Vital Statistics, Department of Social Services, Children's Division and the Child Fatality Review Program. All three exchange and match child fatality data in order to ensure accuracy throughout the system. However, the Bureau of Vital Statistics, Children's Division and the Child Fatality Review Program serve very different functions and, therefore, different classifications and timing periods apply, when child fatality data is reported. Therefore, totals included in this report may differ from totals reported by the other entities.

The number of fatalities reported during any given year may change as a result of pending investigations, changes in conclusions and deaths not reported in a timely manner. During fiscal year 2017, 32 children died as a result of child abuse/neglect.

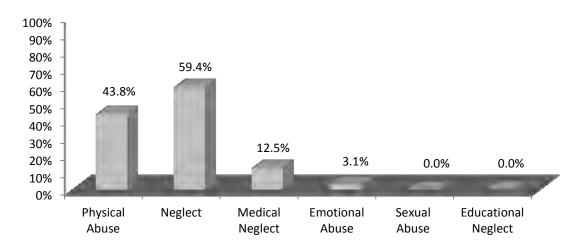

The following chart represents the number of child fatalities for fiscal years 2013 to 2017, when abuse, neglect, or maltreatment was associated with the child's death. This information was reported by calendar year in prior annual reports. To ensure accuracy of the data, and to allow for meaningful comparison, the Children's Division revised the process for compilation, verification, and reporting of this data, beginning in fiscal year 2014.

Substantiated Fatalities

The CA/N fatalities were caused more often by neglect (59.4%) and physical abuse (43.8%). A smaller percentage involved medical neglect (12.5%).

Substantiated Fatalities by Category of Abuse/Neglect during FY 2017

Substantiated Fatalities by Category of Abuse/Neglect during 2017

	Number	Percent
Physical Abuse	14	43.8%
Neglect	19	59.4%
Medical Neglect	4	12.5%
Emotional Abuse	1	3.1%
Sexual Abuse	0	0.0%
Educational Neglect	0	0.0%

Percent is the percent of the 32 substantiated fatalities. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Of the children involved in substantiated fatalities in 2017, the majority (68.7%) were two years old or younger. The highest incidence of child deaths occurred in July and March.

Substantiated Fatailites by Month of Death during FY 2017

Perpetrators

Perpetrator Demographics

For substantiated reports during FY 2017, over two-thirds of the perpetrators (69.6%) were between the ages of 20 and 39. Over half (58.4%) were male and forty-one percent (40.9%) were female. The race of substantiated perpetrators was similar to that of substantiated children. Three-fourths (75.6%) were white and nineteen percent (18.8%) were black.

Substantiated Perpetrators during FY 2017

Age	Number	Percent
<20	212	4.7%
20-29	1,449	32.2%
30-39	1,684	37.4%
40-49	660	14.7%
50-59	298	6.6%
60-69	105	2.3%

	126,448	6,684	5.3%

Perpetrators

Observed Perpetrator Characteristics

Children's Service Workers may indicate up to four **Observed Perpetrator Characteristics** for each substantiated perpetrator of child abuse/neglect. These characteristics are used to assist in determining which services may be beneficial to a family. For instance, if perpetrators have unrealistic expectations of children, providing information on child development can help teach more appropriate disciplinary techniques.

In FY 2017, the most prevalent perpetrator characteristics were drug related problem(s) (29.7%), history of criminal behavior (19.6%), having an adequate support system (17.8%), and having a mental/emotional disturbance (15.4%).

Characteristics of Substantiated Perpetrators during FY 2017

	Number	Percent
Other Drug Related Problem(s)	1,986	29.7%
History of Criminal Behavior	1,313	19.6%
Adequate Support System	1,188	17.8%
Mental/Emotional Disturbance	1,031	15.4%
Unemployed	883	13.2%
No Apparent Mental/Emotional Disturbance	880	13.2%
Amenable to Services	838	12.5%
Financial Problems	546	8.2%
Pattern of Violent Behavior	515	7.7%
Alcohol Related Problem(s)	510	7.6%
Pattern of Violent Behavior	374	5.6%
Unrealistic Expectations of Child	502	7.5%
Immaturity	420	6.3%
Loss of Control during Discipline	402	6.0%
Parental History of Abuse/Neglect as a Child	349	5.2%
High School Education or Higher	302	4.5%
Low Self Esteem	294	4.4%
Undetermined	235	3.5%
No One to Call on in Time of Crisis	186	2.8%
Less than High School Education	94	1.4%
Other	94	1.4%
Illness	42	0.6%
Incapacity Due to Physical Handicap	15	0.2%
Mental Disability	15	0.2%

Percentage is the percentage of 6,684 substantiated perpetrators. Percent total is greater than 100 because a worker may list up to four characteristics for each perpetrator.

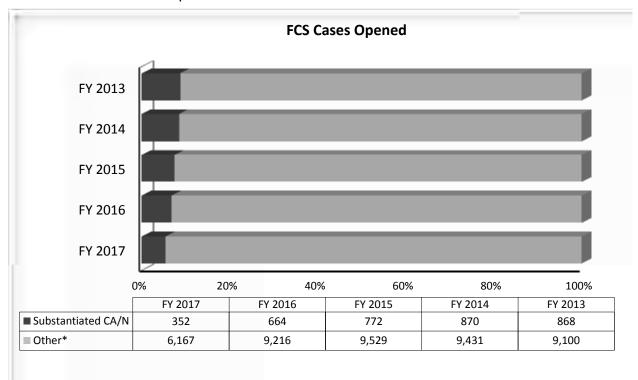

Prevention/Treatment Services

The Children's Division has several programs designed to provide treatment and to help prevent future occurrences of child abuse and neglect.

Family-Centered Services (FCS)

FCS are provided to families and children in their own homes when a child abuse/neglect investigation has been concluded Substantiated, Unsubstantiated-Preventive Services Indicated or Family Assessment-Services Needed. These services are also provided to families who voluntarily seek help and to families whose children are placed out of the home. Services are provided following a family-centered assessment to identify risk issues, family strengths and service needs. A family treatment plan is developed with the family to help them change the conditions which brought them to the attention of CD. Services are designed to help the family direct their own affairs and provide suitable care for the children. The primary purpose of FCS is to improve and maintain the family unit or to reunify the family when alternative care services are provided. Services include a range of treatment and support services. The family treatment plan determines whether services are provided by CD staff and/or purchased or provided by community agencies. Purchased services include day care, family and/or individual counseling, home-based family-centered services, evaluation and diagnosis, homemaker services and respite care, among others.

During FY 2017, a total of 6,519 FCS cases opened and 352 of those were the result of a substantiated Child Abuse/Neglect report. Due to a policy change in March 2017, staff no longer open FCS functions on families when children are placed in alternative care.

^{*}Other includes Family Requests Preventive Services, Court Order, Newborn Crisis Assessment, Family Assessment and Services, and Pending Investigation/Assessment.

Prevention/Treatment Services

Intensive In-Home Services (IIS)

IIS is designed to prevent unnecessary out-of-home placement of children. An in-home specialist provides a variety of services to the entire family to address the crisis that would normally necessitate out-of-home care for a child. Services are delivered immediately at the time of crisis and are time-limited, usually four to six weeks. In-home specialists carry small caseloads of two families. This enables them to spend as much time with the family as needed. The emphasis of IIS is on strengthening the entire family by improving its problem-solving capabilities and teaching them necessary life skills. Among other services, families may receive family therapy, individual and marital counseling, parenting education, child development training, household maintenance and nutritional training, job readiness training and referrals to other community resources. Families authorized for IIS may have children who have been abused or neglected, have committed a status offense, have displayed delinquent behavior, or who are seriously emotionally disturbed and are at imminent risk of being removed from the home. This service is voluntary and at least one caretaker must be willing to participate.

Out-of-Home Placement

Out-of-home care is provided in situations where a caregiver(s) is incapable of providing a child or children with adequate social, emotional and physical care. Out-of-home is defined as care provided in licensed foster or approved relative family homes or kinship care, in licensed residential facilities, or in licensed foster group homes. The service provides substitute settings for children. Children are placed only after it is determined that they cannot remain at home.

Child Care

Assistance with child care services through payment of full or partial cost for eligible families is based on a sliding scale fee system. The primary purpose of the subsidized child care program is to enable families to obtain and retain employment, or the skills necessary to obtain employment, with the ultimate goal of breaking the cycle of poverty. Child care is to be considered an on-going benefit to the family's efforts of self-sufficiency. Additionally, protective services child care is available for children who are receiving preventive services or treatment for child abuse or neglect as part of the family's treatment plan.

Crisis Nurseries

The first state-funded crisis nurseries began providing services to children and their families in May 1993. There are nine of these facilities. Crisis nurseries are child care facilities which protect children by providing a safe environment at a time when the chances of abuse/neglect in the home are increased. Parents voluntarily request and arrange this service directly with the crisis nursery.

Prevention/Treatment Services

Child Abuse/Neglect Review Board

Children's Service Workers reach a conclusion on each child abuse/neglect investigation and notify the parents and alleged perpetrator (if different than the parents) by letter of the conclusion. In some investigations where the conclusion is substantiated, the alleged perpetrator may disagree with the finding. The alleged perpetrator may appeal to the Child Abuse/Neglect Review Board for review of the investigation by contacting the local CD office within 60 days of the notification of the finding. If there are pending criminal charges, the request may be made 60 days from the court's final disposition or dismissal of charges. If convicted, there is no appeal.

The Child Abuse/Neglect Review Board consists of five boards of nine private citizens appointed by the Governor. These boards each meet monthly to review child abuse/neglect appeals. They listen to testimony from CD staff, the alleged perpetrator, and representatives of the child and then make a decision to uphold or reverse the original CD decision. During FY 2017, the review board heard 476 cases and upheld sixty-nine percent (69.1%) of the cases. Following the Child Abuse and Neglect Review Board's disposition, the alleged perpetrator has 30 days to request a judicial review.

Background Screening and Investigation Unit

The Background Screening and Investigation Unit conducts background checks through the child abuse/neglect systems in CD. These checks are run on prospective foster and adoptive parents for CD and for current or prospective employees in the child care industry (day care, residential care providers, schools, etc.). The purpose of the unit is to provide information on potential employees so that a prospective employer can assess if the person is appropriate to care for children. The unit processed 94,647 background checks during FY 2017.

Calls from Mandated Reporters

The state child abuse/neglect law mandates certain professions (mandated reporters) to make a report to the Missouri Children's Division when they have reasonable cause to suspect that a child has been or may be subjected to abuse or neglect. However, many times the mandated reporter may not suspect abuse or neglect but has some other concern about a family. When the reported concern does not meet the criteria of a report of Child Abuse and Neglect (Investigation or Family Assessment), hotline staff document the concerns and, based on the topic of the call, provide referral contact information, as available, directly to the caller. In short, callers receive the referral contact information directly from the hotline worker, rather than being contacted with it later by someone in the field. This immediate communication regarding available resources to the caller allows for a quicker referral to the family through collaboration with professional partners. This process provides assurance that local offices can respond in the most efficient manner possible to reports that meet the statutory definition of Child Abuse and Neglect. Reports received from mandated reporters are referred to field staff if there is an open case on the family.

Prevention/Treatment Services

Newborn Crisis Assessments and Services

CD collaborates with the Department of Health in conjunction with the Department of Mental Health and the Department of Elementary and Secondary Education to address the increasing problem of substance abusing pregnant women and drug exposed infants. Missouri law requires the Departments of Health, Mental Health, Elementary and Secondary Education, and Social Services (CD) to provide a non-punitive system of educational and treatment services related to the prenatal consumption of alcohol and other drugs. This inter-departmental effort is known as the Perinatal Substance Abuse Advisory Council. This council meets quarterly to discuss issues related to the needs of the drug-exposed infant, substance abusing pregnant woman, assessment process, training, accessing available resources, legislative and policy changes.

In most instances, CD receives a Newborn Crisis Assessment Referral, via the CA/N hotline, from the physician or health care provider, who requests CD to conduct an assessment to determine the caretaker's suitability to care for an infant, or to provide protective services as directed by a physician. Following the completion of the Newborn Crisis Assessment, CD coordinates services with the Department of Health and the Department of Mental Health. Service Coordinators in the Department of Health's Bureau of Special Health Care Needs provide health and developmental screenings throughout their involvement with the family. The Department of Mental Health provides drug treatment services for the substance abusing parent, as well as for the family. In FY 2017, the Division received a total of 5,077 Newborn Crisis Assessment Referrals.

Children reported to the Division for abuse and neglect are sometimes identified during the investigation process as having been exposed prenatally to drugs. In FY 2017, 438 children reported to CANHU were subsequently identified as drug-exposed.

Legal

The Missouri Child Abuse Law, Section 210.110 RSMo defines:

Abuse as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control, except that discipline including spanking, administered in a reasonable manner, shall not be construed to be abuse. Victims of abuse shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10).

Neglect as failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being. Victims of neglect shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10).

Sex trafficking is defined as the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act.

Severe forms of trafficking in persons is defined as:

- (A) Sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or
- (B) The recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

Care, custody and **control** of the child includes, but is not limited to:

- The parents or legal guardians of the child;
- Other members of the child's household;
- Those exercising supervision over a child for any part of a twenty-four hour day;
- Any person who has access to the child based on relationship to the parents of the child or members of the child's household or the family; or
- Any person who takes control of the child by deception, force, or coercion.

Investigation is the collection of physical and verbal evidence to determine if a child has been abused or neglected.

Family assessment and services provides for a prompt assessment of a child and their family when the child has been reported to the CD as a victim of abuse or neglect by a person responsible for that child's care, custody or control. Family assessments include the provision of community-based services to reduce the risk of abuse and neglect and to support the family. This approach takes the place of the traditional investigation.

RSMo 210.115. Reports of abuse or neglect, who shall make — When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel that are engaged in the examination, care, treatment, or research of persons, and any other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child care worker, juvenile officer, probation or parole officer, jail or detention center personnel, teacher, principal or other school official, minister as provided by section 352.400, RSMo, peace officer or law enforcement official, or other person with responsibility for the care of children, has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, that person shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.109 to 210.183.

RSMo 352.400 - Christian Science practitioners were added to the definition of ministers with regard to the individuals required to report incidents of suspected child abuse/neglect. Minister is defined as "any person while practicing as a minister of the gospel, clergyperson, priest, rabbi, Christian Science practitioner, or other person serving in a similar capacity for any religious organization who is responsible for or who has supervisory authority over one who is responsible for the care, custody, and control of a child or has access to a child", effective August 28, 2003.

Statute Changes/Modifications

HB 1092 (FN4666-02) Children's Issues SB 869 (FN 5745-04T) Child Care Facilities, CHIPS, & Shared Leave for Foster and Adoptive Parents

• Sections 210.145, 210.152, and 210.183 – Child Abuse and Neglect Investigations – This bill extends the amount of time the Children's Division (CD) has to complete child abuse and neglect investigations and the amount of time the Children's Division has to provide the alleged perpetrator with written notification of the Children's Division's determination.

Operational

At the end of each child abuse/neglect investigation/assessment, the Children's Service Worker reaches a conclusion.

The following are operational definitions for **Investigative** conclusions:

Substantiated: A finding that abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Service Worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts and those with preponderance of evidence.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the Children's Service Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the Children's Service worker has not identified a specific threat exists for the child.

The following are definitions for **Family Assessment** conclusions:

Services Needed: The family has an identified need for services. CD will continue to work with the family after the assessment is completed and will continue providing services for some period of time.

Services Needed-Linked Initial 45 Days: The family has an identified need for community services. The identified services were linked with the family during the 45-day family assessment process. CD will not continue working with the family when the family assessment process is completed. The Children's Service Worker should contact referral providers to verify that the family is receiving services.

Services Needed-Family Declined: The Children's Service Worker has identified a service that may be beneficial to the family; however, the family declined to receive the services. The child's safety has been assessed, and there is no evidence that warrants court intervention.

Services Not Needed: The family does not have an identified need for additional services. Families may be receiving services prior to the date of the hotline. Services Not Needed is used only when the family does not have additional service needs.

Non-cooperative/Child Safe: Enough information has been obtained to ensure that the child is safe; however, the family refuses to participate in the family assessment process and the allegations do not warrant a co-investigation with law enforcement or court involvement.

For a small number of reports, the definitions on the previous page are not applicable. Other conclusions for either investigations or assessments include **Unable to Locate**, **Inappropriate Report**, **Located Out of State**, **Home Schooling**, and **School Investigation by School Board (Substantiated, Unsubstantiated, Unresolved).**

Methodological

The following are technical definitions used in the computations of the statistics throughout this report:

Reported incident: An allegation of child abuse/neglect made to the hotline which meets the legal definitions for abuse/neglect and for care, custody, and control. A reported incident may involve more than one child and more than one alleged perpetrator. The terms "report," "incident" and "reported incident" are used interchangeably throughout this report.

Incident conclusion: The Children's Service Worker assigns a conclusion for each child and for each alleged perpetrator involved in an incident. If at least one child is substantiated, the incident is considered to be substantiated.

Incident category of abuse/neglect: Up to fifty findings of abuse/neglect can be assigned to each substantiated child. Each incident may have up to six categories of abuse/neglect because each child may be substantiated for different types of abuse/neglect. For incidents involving more than one child, each category of abuse/neglect is counted once if at least one child was substantiated for that category.

Reported child: A child named in a reported incident of child abuse/neglect. A child may be reported more than one time during the year, and unless otherwise indicated, counts of children are duplicated in this report.

Child conclusion: The Children's Service Worker assigns a conclusion for each child involved in an incident. For example, some children in the report may be substantiated while others may be unsubstantiated.

Child category of abuse/neglect: Each substantiated child may be assigned up to six categories of abuse/neglect.

Alleged perpetrator: A person named as the perpetrator in a reported incident of child abuse/neglect. An alleged perpetrator may be involved in more than one incident during the year. Unless otherwise indicated, counts of alleged perpetrators are duplicated in this report.

Alleged perpetrator conclusion: The Children's Service Worker assigns a conclusion to each alleged perpetrator involved in an incident. One perpetrator in a report may be substantiated while another may be unsubstantiated.

Substantiated perpetrator: When a conclusion of an investigation in which the Division has made a determination of child abuse or neglect by a Preponderance of Evidence in accordance with the law and the allegations against the perpetrator are determined substantiated.

Juvenile reports: As of August 28, 2015 the Children's Division utilizes a family assessment and services approach when reports are received containing concerns of children with problem sexual behaviors. A child with problem sexual behavior is defined as 'any person, under fourteen years of age, who has allegedly committed sexual abuse against another child'. These reports are screened by the Child Abuse and Neglect Hotline Unit when any child under the age of fourteen (14) is alleged to have committed an act of sexual abuse against any person under the age of eighteen (18). Non-caretaker referrals, investigations, or traditional assessments may all meet criteria for a juvenile report.
