

**Child Abuse and Neglect
Annual Report
Fiscal Year 2019**

Mission

We will lead the nation in building the capacity of individuals, families, and communities to secure and sustain healthy, safe, and productive lives.

Mission

To protect Missouri children from abuse and neglect; assuring their safety and well-being by partnering with families, communities and government in an ethically, culturally and socially responsible manner.

Dear Reader:

Thank you for your interest and concern regarding child abuse and neglect in Missouri. This report contains information regarding reports and referrals to the Child Abuse and Neglect Hotline during Fiscal Year 2019, including the substantiation status of the reports and the number of children and families served by a program within the Missouri Children's Division.

Additionally, the report includes a description of Missouri's unique multiple-response system to responding to child abuse and neglect reports. For over ten years, the Children's Division has worked to enhance our family-centered, community-based practice through the use of family assessments.

Any questions about the report should be directed to the Children's Division or the Research Unit, both located within the Department of Social Services.

Introduction

This report compiles data collected by the Missouri Department of Social Services (DSS), Children's Division (CD), in the course of Child Abuse and/or Neglect (CA/N) investigations/assessments during the fiscal year, July 1, 2018 through June 30, 2019. As a result of pending investigations or changes in conclusions, the data is prone to change. The data reported is current as of November 2019.

The Child Abuse/Neglect Hotline Unit (CANHU) accepts confidential reports of suspected child abuse, neglect, or exploitation. Missouri's toll-free number for reporting child abuse/neglect is **1-800-392-3738**. Mandated reporters can also report online at <http://dss.mo.gov/cd/can.htm>.

The CANHU is operated year-round on a 24 hours per day, seven days per week basis. During FY 2019, it was staffed by 50 full-time and 11 part-time trained and experienced Children's Service Workers. A call to the hotline is referred to as a "report" or "reported incident" of child abuse/neglect. A report may involve from one to several children. Over the course of the fiscal year, the hotline had received over 64,000 reported incidents that involved over 89,000 children in Missouri.

When a call is received at the CANHU, information is analyzed to determine whether:

- the child is under age 18;
- the alleged perpetrator has care, custody and control of the child;
- the report meets the legal definition of abuse and/or neglect as stipulated in 210.110, RSMo (see Appendix I definitions).

After a report of suspected abuse, neglect, or exploitation has been made to the hotline, the information is forwarded electronically to one of the 114 county offices or the St. Louis City office for either investigation or assessment. A report indicating behavior that may constitute a criminal violation is screened as an investigation and law enforcement is contacted to co-investigate. Reports of child abuse/neglect that do not appear to be of a criminal nature may be responded to as a family assessment, where resources or services may be offered to the families to help prevent abuse or to meet a family's specific need. During FY 2019, thirty-six percent (36.3%) of reports taken by the CANHU were assigned as investigation and fifty-nine percent (58.6%) as family assessments. Another five percent (5.1%) were assigned as juvenile assessments, where a child under the age of fourteen is alleged to have committed an act of sexual abuse against a person under the age of eighteen.

Investigations/assessments must be initiated within 24 hours, or immediately when it is determined that the child is in imminent danger. When the only allegation is educational neglect, or the allegation is an old allegation and the child is protected, an investigation/assessment must be initiated within 72 hours.

Children's Service Workers must complete investigations and family assessments within 45 days of report, and juvenile and differential response assessments within 90 days. At the end of each child abuse/neglect investigation/assessment, the Children's Service Worker reaches a conclusion. Of the 89,738 children with reports in FY 2019, 5,225 (5.8%), were substantiated as abused/neglected.

Reports

Reports to the Child Abuse/Neglect Hotline

Over the past fiscal year, the CANHU received 134,817* hotline calls. Of those reports, 64,920 were classified as Investigations or Assessments and were completed by the Children's Division. A total of 89,738 children** were involved in the investigations/assessments.

Incidents and Children Reported to the Child Abuse/Neglect Hotline

Year	Total Reports	Annual Change	Total Children**	Annual Change
2015	68,623		100,625	
2016	72,388	5.5%	106,067	5.4%
2017	68,014	-6.0%	98,270	-7.4%
2018	73,924	8.7%	106,090	8.0%
2019	64,920	-12.2%	89,738	-15.4%

**Data provided by CANHU; excludes calls classified as Prior Checks or Other.*

*** All counts of children are duplicated because a child may be reported more than once during the year. Total reports include only reports with a Type of Response of Investigation or Assessment and completed by field staff. Other CANHU reports requiring staff attention or action but do not meet the requirement for Investigation or Assessment are not included in the overall count.*

Reports fluctuated by month during the year. October had the highest number, and June the least, of both reported incidents and children. During FY 2019, an average of 5,410 reports involving 7,478 children were made each month.

FY 2019 Child Abuse/Neglect Reports and Children by Month of Report

Reports

A child may be reported as an alleged victim more than once during the year. In FY 2019, a total of 71,079 children had been involved in one or more reports. Over three-fourths of children (80.8%) had been reported only once; fourteen percent (14.4%) were involved in two reports. Five percent (4.9%) were involved in more than two reports.

Number of Reported Incidents Per Child during FY 2019

Reporters

Reports of child abuse/neglect can be made by persons who are either "mandated" or "permissive" reporters. Mandated reporters are required by state statute to report abuse/neglect when they have reasonable cause to suspect a child has been or is being abused or neglected. Mandated reporters include, but are not limited to, health and education professionals, social workers and foster parents. Permissive reporters, such as relatives or neighbors, are not required to report suspected abuse/neglect.

More than one reporter may be involved in a report to the hotline. The majority of reporters during FY 2019 were mandated reporters.

Type of Child/Abuse Neglect Reporters during FY 2019

Reports

Mandated reporters were more often in the occupations of school principal/official, social worker or peace officer/law enforcement official.

Reporters of Child Abuse/Neglect during FY 2019 by Occupation

	Number	Percent
Permissive	17,558	22.4%
Principal or other school official	13,199	16.9%
Social Worker	9,929	12.7%
Peace Officer or Law Enforcement Official	9,805	12.5%
Mental Health Professional	5,524	7.1%
Teacher	4,874	6.2%
Nurse	4,641	5.9%
Unknown	3,267	4.2%
Other Person with Responsibility for Care of Children	3,198	4.1%
Children's Division Worker	1,607	2.1%
Physician	1,027	1.3%
Juvenile Officer	810	1.0%
Day Care	645	0.8%
Other Health Practitioner	563	0.7%
Psychologist	435	0.6%
Other Hospital/Clinic Personnel	403	0.5%
Intern	196	0.3%
Minister	168	0.2%
Probation Officer or Parole Officer	149	0.2%
Medical Examiner	61	0.1%
Resident	59	0.1%
Jail/Detention Personnel	55	0.1%
Dentist/Dental hygienist	40	0.1%
Coroner	26	0.0%
Optometrist	3	0.0%
Chiropractor	2	0.0%

Note: Reporters exceed reports because more than one person may report an incident.

Child Protection System: Assessments & Investigations

Missouri's Child Protection Services system culminated from a collaborative effort between the Children's Division, elected officials, community organizations and private citizens. Senate Bill 595 (SB 595) was signed into law in 1994 and expanded statewide in 1998. The primary focus of SB 595 is to protect children from abuse/neglect in the least disruptive and intrusive way, that recognizes the value of the family. In addition, the child's protection is provided in the most efficient and effective manner possible within the framework of state, community, and family resources.

A child abuse/neglect report is screened to determine the appropriate intervention method at the time the report is received by the CANHU. If behaviors that constitute a criminal violation are indicated, the response to the report is a fact-finding investigation and the appropriate local law enforcement agency is notified to assist. The response for remaining reports is a Family Assessment or a Juvenile Assessment for reports of children with problem sexual behavior. The main purpose of an assessment is to determine the child's safety and the family's need for services. Both investigated families and those who receive the assessment response receive prompt and effective delivery of services in order to address their needs.

Of the reports received in FY 2019, fifty-nine percent (58.6%) were initially assigned as Family Assessments, five percent (5.1%) as Juvenile Assessments, and thirty-six percent (36.3%) as Investigations by the CANHU.

FY 2019 Reports by Type of Response

After the Children's Division worker has made contact with the reported family, or law enforcement is involved and calls a worker into the field, a report initially assigned as an assessment may change its track to an investigation, or an investigation may be changed to an assessment track.

In May 2018, CD policy was changed to allow for reports to be tracked as Differential Response (DR) assessments. DR assessments are assessments that have been determined by the family, CD worker and supervisor as needing more intensive work with the family, and traditionally go beyond the 45 days to complete. Its purpose is to provide the family with needed resources, support and services to further promote safety and well-being of the family during the assessment period.

Child Protection System: Assessments & Investigations

Two-thirds of reports (60.0%) were concluded as Family Assessments and one-third (33.9%) as Investigations. One percent (1.1%) of reports were changed to Differential Response after assignment.

FY 2019 Reports by Final Track

Children's Service Workers investigate/assess each report to determine if abuse/neglect is occurring or has occurred and evaluate the family's need for services. Thorough investigations/assessments require hours of interviews and information collection, and usually include the following major steps.

- Contacting the reporter, if known, for additional information before proceeding with the investigation;
- Contacting appropriate law enforcement personnel or multidisciplinary team members to request a co-investigation if the alleged report, if true, would constitute a violation of the law;
- Making a determination regarding the safety of the children within 24 hours, or immediately if deemed as an emergency;
- Contacting the School District Liaison when the victim in the child abuse/neglect report is school-aged;
- Determining the safety of all other children in the household within 72 hours;
- Consulting with the Chief Investigator within 72 hours;
- Contacting collateral persons;
- Interviewing witnesses;
- Interviewing the non-offending parent;
- Interviewing the alleged perpetrator(s);
- Evaluating and documenting all information collected and observed;
- Determining whether abuse/neglect has occurred or is occurring;
- Evaluating the family's need for services and making appropriate referrals for needed services;
- Notifying the child's parent(s), alleged perpetrator and, if applicable, school district liaison and the mandated reporter of the report conclusion and related findings.

Child Protection System: Assessments & Investigations

Observed Family Characteristics

Children's Service Workers may designate up to fifteen **Observed Family Characteristics** during each family assessment/investigation. Services and supports for families are designed to build on the strengths and resources of the families and communities.

A third of families tracked as an assessment had extended family support systems (36.2%) and adequate living conditions (34.7%). Following are the top 25 observed characteristics.

Characteristics of Families Involved in Assessments during FY 2019

	Number	Percent
Extended family support system	15,525	36.2%
Adequate living conditions	14,915	34.7%
Amenable to Services	8,868	20.7%
Community/Cultural support	8,701	20.3%
Single parent household	8,254	19.2%
Appropriate parenting skills	6,251	14.6%
Appropriate Parenting Skills	5,955	13.9%
Appropriate child development knowledge	5,228	12.2%
Stable family relationships/household	4,992	11.6%
Good physical/mental health	3,111	7.2%
Manages finances well	2,718	6.3%
No history of violence	2,635	6.1%
Stable marriage	2,327	5.4%
Other drug related problems	1,414	3.3%
Positive childhood experiences	1,372	3.2%
Domestic violence	1,180	2.7%
Lack of Parenting Skills	1,165	2.7%
Recent/Frequent Relocation	989	2.3%
Insufficient/misuse of income	955	2.2%
Heavy continuous childcare responsibility	731	1.7%
New Baby in Home/Pregnancy	728	1.7%
Crowded living conditions	710	1.7%
Marital Problems	673	1.6%
Recent loss/addition to household members	553	1.3%
Loss of employment	496	1.2%

Percent is the percentage of 42,940 reports tracked as Family Assessments, Juvenile Assessments or Differential Response. Percent total is greater than 100 because up to 15 family characteristics may be reported for each Family Assessment.

Child Protection System: Assessments & Investigations

The characteristics of families involved in investigations are similar to families assessed. Around a third of families had extended family support systems (35.8%) and adequate living conditions (33.3%). Below are the top 25 observed characteristics.

Characteristics of Families Involved in Investigations during FY 2019

	Number	Percent
Extended family support system	7,862	35.8%
Adequate living conditions	7,317	33.3%
Amenable to Services	4,396	20.0%
Community/Cultural support	4,205	19.1%
Single parent household	3,945	17.9%
Appropriate parenting skills	2,878	13.1%
Problem solving skills	2,456	11.2%
Stable family relationships/household	2,284	10.4%
Appropriate Child Development Knowledge	2,216	10.1%
Good physical/mental health	1,312	6.0%
Manages finances well	1,232	5.6%
Other drug related problem(s)	1,123	5.1%
No History of Violence	1,084	4.9%
Lack of parenting skills	1,012	4.6%
Stable Marriage	989	4.5%
Domestic Violence	791	3.6%
Positive childhood experiences	567	2.6%
Recent/Frequent Relocation	456	2.1%
New baby in home/pregnancy	419	1.9%
Insufficient/Misuse of income	413	1.9%
Marital problems	395	1.8%
Heavy continuous child care responsibility	385	1.8%
Recent Loss/Addition to Household Members	346	1.6%
Crowded living conditions	320	1.5%
Alcohol related problem(s)	320	1.5%

Percent is the percentage of 21,980 reports tracked as Investigations. Percent total is greater than 100 because up to 15 family characteristics may be reported for each Family Assessment.

Child Protection System: Assessments & Investigations

CD policy requires completion of investigations/assessments within 45 days. Juvenile assessments and DR assessments are usually completed within 90 days. Upon completion of the investigation, a report may be concluded as Substantiated, Unsubstantiated-Preventive Services Indicated (PSI), Unsubstantiated, or Family Assessment.

Substantiated: A finding that a preponderance of evidence exists to conclude abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Service Worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the Children's Service Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the Children's Service Worker has not identified a specific threat exists for the child.

Conclusions categorized as Other include unable to locate, inappropriate report, located out of state, home schooling, already investigated, and school investigation by school board. See Appendix I for further definition. The families were unable to be located in a third (39.1%) of the 3,442 incidents concluded as Other.

Reported Incidents and Children by Conclusion

Six percent of incidents (5.9%) and of children (5.8%) were concluded as substantiated, consistent with that in the past. Compared to FY 2015, there were more assessment conclusions and less unsubstantiated conclusions.

Reported Incidents of CA/N by Conclusion

Year	Substantiated		Unsubstantiated PSI		Unsubstantiated		Family, Juvenile, DR Assessment		Other		Total
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent

Reported Incidents and Children by Conclusion

Conclusions are as follows:

- Substantiated - Court Adjudicated and Preponderance of Evidence;
- Unsub.-PSI - Unsubstantiated-Preventive Services Indicated;
- Unsub. - Unsubstantiated;
- Family Assessment: Agency Responded Refer to FCS or AC Case Opened, Agency Responded No Concerns Found, Family Uncooperative Child Safe, Agency Responded Services Provided, Family Declined Services Child Safe, and Agency Responded Concerns Addressed;
- Other - Unable to Locate, Inappropriate Report, Located Out of State, Already Investigated, and Home Schooling

Assessment Conclusions

The majority of CANHU reports were concluded as assessments. The goal of this approach is to assure child safety, address the strengths of the family, and to identify and treat the family's needs.

Family Assessments, Juvenile Assessments and Differential Response are concluded as the agency responded and either provided services, addressed concerns, or no concerns were found; or where the child is safe but the family refused services or refused to participate in the assessment process.

Reported Incidents and Children by Assessment Conclusion

The majority of Family Assessments were concluded as no concerns found (41.3%) while most Juvenile Assessments were concluded as concerns addressed (53.5%). Compare to Family Assessments and Juvenile Assessments, Differential Response Assessments were more likely conclude as providing services or referred to FCS/AC case opened.

Reported Incidents by Assessment Conclusion during FY 2019

Conclusion	Family Assessment		Juvenile Assessment		Differential Response		Total Assessments	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
Agency Responded Referred to FCS or AC Case Opened	2,288	6.2%	90	2.9%	130	18.7%	2,508	6.2%

Assessment Conclusions

Reported Incidents and Children by Assessment Conclusion during FY 2019

For reports concluded as assessments, the majority were found to have no concerns (40.2%) or the concerns were addressed (40.9%). Six percent (6.2%) resulted in opening a Family Centered Services (FCS) case or an Alternative Care (AC) case for 3,939 children, and five percent (5.0%) resulted in providing services for 2,957 children.

Reported Incidents by Assessment Conclusion

Demographics of Assessment Children

During the year, 57,303 children were involved in reports concluded as assessments. Of those, 8,073 children or fourteen percent (14.1%) were found to be in need of services.

Families with children age five and younger were somewhat more likely to be referred to Family Centered Services (FCS) or have an Alternative Case (AC) opened with Children's Division. Families with older children were slightly more likely to decline services.

Children of Assessment Conclusions by Age

Assessment Conclusions

Children involved in reports concluded as assessments were split between males (50.5%) and females (49.3%). Nearly three-fourths were white (71.7%) and eighteen percent (17.8%) were black. Ten percent (9.7%) were of Hispanic origin.

Assessment Concluded Children during FY 2019

Substantiated Conclusions

Substantiated Children by Category of Abuse/Neglect

During FY 2019, 5,225 children were involved in incidents that were concluded as substantiated for abuse/neglect. When a Children's Service Worker determines there is preponderance of evidence that abuse/neglect has occurred, up to six categories of abuse/neglect can be assigned to each child. Neglect was the most prevalent category assigned during FY 2019 investigations.

Substantiated Children by Category of Abuse/Neglect during FY 2019

Substantiated Children by Category of Abuse/Neglect during FY 2019

	Number	Percent
Neglect	2,846	54.5%
Sexual Abuse	1,756	33.6%
Physical Abuse	1,592	30.5%
Emotional Abuse	680	13.0%
Medical Neglect	169	3.2%
Educational Neglect	84	1.6%

Percent is the percentage of 5,225 total substantiated children. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Substantiated Conclusions

Most substantiated incidents were reported in April with 488 children. April saw the highest incidence of neglect (285), May saw the highest incidence of physical abuse (162), and October had the highest incidences of sexual abuse (175). The lowest number of substantiated children was reported in November (363). The lowest occurrences of neglect, physical abuse and sexual abuse were in November (188), November (105) and January (126), for children respectively.

In addition to assigning categories of abuse or neglect, a Children's Service Worker may also describe up to fifty specific findings of abuse. For neglected children, the most frequent worker descriptions are those typically associated with neglect, such as a lack of supervision and unsafe or inadequate shelter. The ten most frequently reported worker findings for neglected children are shown below.

Worker Findings for Neglected Children during FY 2019

	Number	Percent
Lack of Supervision	2,054	72.2%
Unsafe/Inadequate Shelter	767	27.0%
Unsanitary Living Conditions	484	17.0%
Failure to Protect	434	15.2%
Blaming, Verbal Abuse, Threatening	404	14.2%
Bruises, Welts, Red Marks	277	9.7%
Other Physical Abuse or Injury	275	9.7%
Other Sexual Abuse (A9)	202	7.1%
Inappropriately Giving Drugs	150	5.3%
Fondling/Touching	141	5.0%

Percent is the percentage of 2,846 substantiated neglected children. Percent total is greater than 100 because multiple findings may be found for a child.

Substantiated Conclusions

For physically abused children, the most frequently reported worker findings were bruises, welts or red marks along with other abuse or injury. Lack of supervision was also cited quite often, suggesting that neglect may occur in some abusive situations. The ten most often reported worker findings for physically abused children are shown below.

Worker Findings for Physically Abused Children during FY 2019

	Number	Percent
Bruises, Welts, Red Marks	893	56.1%
Other Physical Abuse or Injury	731	45.9%
Lack of Supervision	431	27.1%
Blaming, Verbal Abuse, Threatening	262	16.5%
Abrasions, Lacerations	232	14.6%
Inappropriately Giving Drugs	213	13.4%
Failure to Protect	167	10.5%
Unsafe/Inadequate Shelter	136	8.5%
Other Sexual Abuse	132	8.3%
Unsanitary Living Conditions	91	5.7%

Percent is the percentage of 1,592 substantiated physically abused children. Percent total is greater than 100 because multiple findings may be found for a child.

Fondling or touching was the most frequent worker finding for sexually abused children. The ten most often reported worker findings for sexually abused children are shown below.

Worker Findings for Sexually Abused Children during FY 2019

	Number	Percent
Fondling/Touching	892	50.8%
Other Sexual Abuse	752	42.8%
Intercourse	374	21.3%
Oral Sex, Sodomy	371	21.1%
Digital Penetration	213	12.1%
Lack of Supervision	114	6.5%
Failure to Protect	85	4.8%
Pornography	71	4.0%
Blaming, Verbal Abuse, Threatening	47	2.7%
Inappropriately Giving Drugs	39	2.2%

Percent is the percentage of 1,756 substantiated sexually abused children. Percent total is greater than 100 because multiple findings may be found for a child.

Substantiated Conclusions

Observed Family Characteristics

Information gathered during an investigation of child abuse/neglect can help identify factors which place a child at risk for abuse/neglect. In addition to establishing an investigative conclusion for each child, Children's Service Workers may designate up to four **Observed Family Characteristics** for each reported incident. These characteristics may indicate which services could help prevent the recurrence of abuse/neglect. It is important to note that these are not absolute counts. For instance, a problem with alcohol or other drugs may be difficult to detect during the course of an investigation.

The family characteristics reported in fiscal year 2019 are similar to those reported in prior years. The majority of families involved in substantiated incidents had an extended family support and adequate living conditions. The top twenty family characteristics are listed below.

Characteristics of Families Involved in Substantiated Incidents during FY 2019

	Number	Percent
Extended family support system	1,639	42.9%
Adequate living conditions	1,194	31.3%
Amenable to services	933	24.4%
Single parent household	879	23.0%
Community/Cultural support	756	19.8%
Other Drug Related Problem(s)	694	18.2%
Lack of Parenting Skills	636	16.7%
Appropriate Parenting Skills	435	11.4%
Domestic Violence	400	10.5%
Stable Family Relationships/Household	368	9.6%
Appropriate Child Development Knowledge	332	8.7%
Dangerous Living Conditions	299	7.8%
Insufficient/Misuse of Income	237	6.2%
Manages Finances Well	217	5.7%
Recent/Frequent Relocation	194	5.1%
Good Physical/Mental Health	189	4.9%
No History of Violence	185	4.8%
Alcohol Related Problem(s)	183	4.8%
Recent/Frequent Relocation	169	4.4%
Marital Problems	149	3.9%

Percent is the percentage of 3,819 total substantiated incidents. Percent total is greater than 100 because up to four family characteristics may be reported per incident.

Substantiated Conclusions

Demographics of Substantiated Children

Of the substantiated children during FY 2019, over half (59.3%) were female and forty-one percent (40.7%) were male. Sexually abused children were more likely to be female. Neglect was more prevalent among younger children while sexual abuse occurred more often among older children.

Child Abuse/Neglect Children during FY 2019 by Category of Abuse

	Substantiated		Neglect		Physical Abuse		Sexual Abuse		Emotional Abuse		Medical Neglect		Educational Neglect

Substantiated Conclusions

Child Abuse/Neglect Fatalities

Missouri has a strong capacity to become aware of fatalities resulting from child abuse/neglect. If the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner, or physician are required to notify the division of the child's death. In all other cases, the medical examiner or coroner accepts the report for investigation, immediately notifies the division of the child's death as required under section 58.452, RSMo, and reports the findings to the child fatality review panel established pursuant to section 210.192, RSMo.

Child Abuse and Neglect fatalities reported by the Children's Division include fatalities of children under the age of 18 for which a report of child abuse and neglect has been received by CANHU and which are classified as substantiated based on a Preponderance of the Evidence evidentiary standard of proof as stipulated in 210.110, RSMo.

In Missouri, there are three entities within state government responsible for child fatality information: Department of Health and Senior Services' Bureau of Vital Statistics, Department of Social Services, Children's Division and the Child Fatality Review Program. All three exchange and match child fatality data in order to ensure accuracy throughout the system. However, the Bureau of Vital Statistics, Children's Division and the Child Fatality Review Program serve very different functions and, therefore, different classifications and timing periods apply, when child fatality data is reported. Therefore, totals included in this report may differ from totals reported by the other entities.

The number of fatalities reported during any given year may change as a result of pending investigations, changes in conclusions and deaths not reported in a timely manner. During fiscal year 2019, 45 children died as a result of child abuse/neglect.

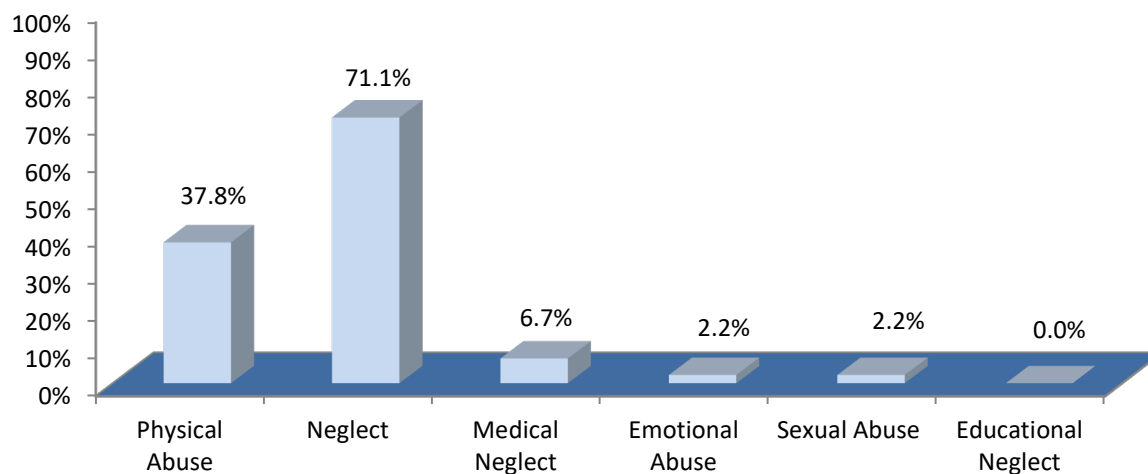

The following chart represents the number of child fatalities for fiscal years 2015 to 2019, when abuse, neglect, or maltreatment was associated with the child's death.

Substantiated Conclusions

Types of abuse most often found to be substantiated in CA/N fatalities were neglect (71.1%) and physical abuse (37.8%).

Substantiated Fatalities by Category of Abuse/Neglect during FY 2019

Substantiated Fatalities by Category of Abuse/Neglect during FY 2019

	Number	Percent
Physical Abuse	17	37.8%
Neglect	32	71.1%
Medical Neglect	3	6.7%
Emotional Abuse	1	2.2%
Sexual Abuse	1	2.2%
Educational Neglect	0	0.0%

Percent is the percent of the 45 substantiated fatalities. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Substantiated Conclusions

Of the children involved in substantiated fatalities in FY 2019, the majority (68.9%) were two years old or younger. The highest incidence of child deaths occurred in August and December.

Substantiated Fatalities during FY 2019

Substantiated Fatalities by Month of Death during FY 2019

Perpetrators

Perpetrator Demographics

For substantiated reports during FY 2019, almost two-thirds of perpetrators (64.9%) were between the ages of 20 and 39. Over half (60.9%) were male and the majority (75.1%) were white.

Substantiated Perpetrators during FY 2019

<20	306	6.5%
20-29	1,334	28.4%
30-39	1,714	36.5%
40-49	730	15.5%
50-59	338	7.2%
60-69	117	2.5%
70+	44	0.9%
Unknown	116	2.5%

White	3,531	75.1%
Black	773	16.5%

Institution/staff	878	71	8.1%
Other	11,369	691	6.1%

Perpetrators

Observed Perpetrator Characteristics

Children's Service Workers may indicate up to four **Observed Perpetrator Characteristics** for each substantiated perpetrator of child abuse/neglect. These characteristics are used to assist in determining which services may be beneficial to a family. For instance, if perpetrators have unrealistic expectations of children, providing information on child development can help teach more appropriate disciplinary techniques.

The most prevalent perpetrator characteristics in FY 2019 investigations were drug related problem(s) (23.0%) and history of criminal behavior (16.4%).

Characteristics of Substantiated Perpetrators during FY 2019

	Number	
Other Drug Related Problem(s)	1,082	23.0%
History of Criminal Behavior	771	16.4%
No Apparent Mental/Emotional Disturbance	735	15.6%
Mental/Emotional Disturbance	660	14.0%
Adequate Support System	656	14.0%
Amenable to Services	409	8.7%
Unemployed	399	8.5%
Pattern of Violent Behavior	320	6.8%
Alcohol Related Problem(s)	300	6.4%
Financial Problems	280	6.0%
Undetermined	269	5.7%
Loss of Control During Discipline	267	5.7%
Immaturity	264	5.6%
Unrealistic Expectations of Child	259	5.5%
Low Self Esteem	172	3.7%
Parental History of Abuse/Neglect as a Child	164	3.5%
High School Education or Higher	137	2.9%
No One to Call on in Time of Crisis	88	1.9%
Less than High School Education	55	1.2%
Institutional Report/Unknown Perpetrator	27	0.6%
Illness	18	0.4%
Incapacity Due to Physical Handicap	15	0.3%
Mental Retardation	15	0.3%
Other	69	1.5%

Percentage is the percentage of 4,699 substantiated perpetrators. Percent total is greater than 100 because a worker may list up to four characteristics for each perpetrator.

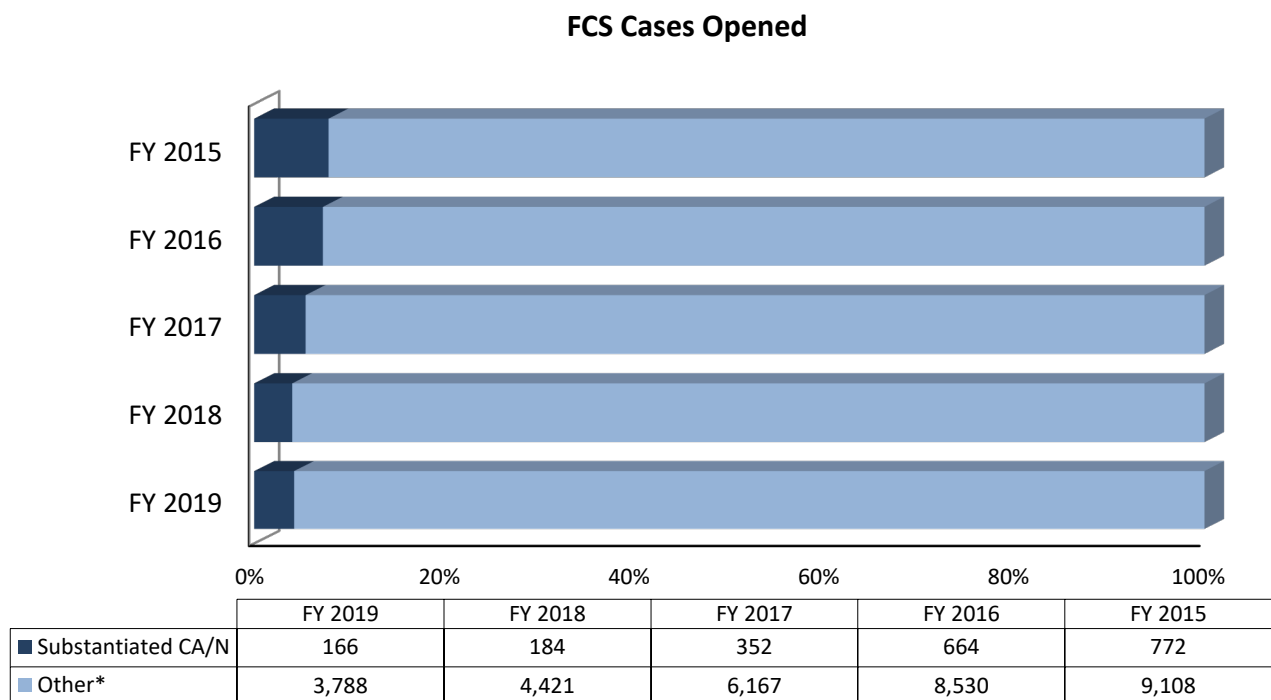

Prevention/Treatment Services

The Children's Division has several programs designed to provide treatment and to help prevent future occurrences of child abuse and neglect.

Family-Centered Services (FCS)

FCS are provided to families and children in their own homes when a child abuse/neglect investigation has been concluded Substantiated, Unsubstantiated-Preventive Services Indicated or Family Assessment-Services Needed. These services are also provided to families who voluntarily seek help and to families whose children are placed out of the home. Services are provided following a family-centered assessment to identify risk issues, family strengths and service needs. A family treatment plan is developed with the family to help them change the conditions which brought them to the attention of CD. Services are designed to help the family direct their own affairs and provide suitable care for the children. The primary purpose of FCS is to improve and maintain the family unit or to reunify the family when alternative care services are provided. Services include a range of treatment and support services. The family treatment plan determines whether services are provided by CD staff and/or purchased or provided by community agencies. Purchased services include day care, family and/or individual counseling, home-based family-centered services, evaluation and diagnosis, homemaker services and respite care, among others.

During FY 2019, 166 of the 3,954 FCS cases opened were the result of a substantiated Child Abuse/Neglect report. Due to a policy change in March 2017, staff no longer open FCS functions on families when children are placed in alternative care.

***Other includes Family Requests Preventive Services, Court Order, Newborn Crisis Assessment, Family Assessment and Services Needed, and Pending Investigation/Assessment.**

Intensive In-Home Services (IIS)

IIS is designed to prevent unnecessary out-of-home placement of children. An in-home specialist provides a variety of services to the entire family to address the crisis that would normally necessitate out-of-home care for a child. Services are delivered immediately at the time of crisis and are time-limited, usually four to six weeks. In-home specialists carry small caseloads of two families. This enables them to spend as much time with the family as needed. The emphasis of IIS is on strengthening the entire family by improving its problem-solving capabilities and teaching them necessary life skills. Among other services, families may receive family therapy, individual and marital counseling, parenting education, child development training, household maintenance and nutritional training, job readiness training and referrals to other community resources. Families authorized for IIS may have children who have been abused or neglected, have committed a status offense, have displayed delinquent behavior, or who are seriously emotionally disturbed and are at imminent risk of being removed from the home. This service is voluntary and at least one caretaker must be willing to participate.

Out-of-Home Placement

Out-of-home care is provided in situations where a caregiver(s) is incapable of providing a child or children with adequate social, emotional and physical care. Out-of-home is defined as care provided in licensed foster or approved relative family homes or kinship care, in licensed residential facilities, or in licensed foster group homes. The service provides substitute settings for children. Children are placed only after it is determined that they cannot remain at home.

Child Care

Assistance with child care services through payment of full or partial cost for eligible families is based on a sliding scale fee system. The primary purpose of the subsidized child care program is to enable families to obtain and retain employment, or the skills necessary to obtain employment, with the ultimate goal of breaking the cycle of poverty. Child care is to be considered an on-going benefit to the family's efforts of self-sufficiency. Additionally, protective services child care is available for children who are receiving preventive services or treatment for child abuse or neglect as part of the family's treatment plan.

Crisis Nurseries

The first state-funded crisis nurseries began providing services to children and their families in May 1993. There are nine of these facilities. Crisis nurseries are child care facilities which protect children by providing a safe environment at a time when the chances of abuse/neglect in the home are increased. Parents voluntarily request and arrange this service directly with the crisis nursery.

Child Abuse/Neglect Review Board

Children's Service Workers reach a conclusion on each child abuse/neglect investigation and notify the parents and alleged perpetrator (if different than the parents) by letter of the conclusion. In some investigations where the conclusion is substantiated, the alleged perpetrator may disagree with the finding. The alleged perpetrator may appeal to the Child Abuse/Neglect Review Board for review of the investigation by contacting the local CD office within 60 days of the notification of the finding. If there are pending criminal charges, the request may be made 60 days from the court's final disposition or dismissal of charges. If convicted, there is no appeal.

The Child Abuse/Neglect Review Board consists of five boards of nine private citizens appointed by the Governor. These boards each meet monthly to review child abuse/neglect appeals. They listen to testimony from CD staff, the alleged perpetrator, and representatives of the child and then make a decision to uphold or reverse the original CD decision. During FY 2019, the review board heard 662 cases and upheld eighty-two percent (82%) of the cases. Following the Child Abuse and Neglect Review Board's disposition, the alleged perpetrator has 30 days to request a judicial review.

Background Screening and Investigation Unit

The Background Screening and Investigation Unit conducts background checks through the child abuse/neglect systems in CD. These checks are run on prospective foster and adoptive parents for CD and for current or prospective employees in the child care industry (day care, residential care providers, schools, etc.). The purpose of the unit is to provide information on potential employees so that a prospective employer can assess if the person is appropriate to care for children. The unit processed 92,113 background checks during FY 2019.

Calls from Mandated Reporters

The state child abuse/neglect law mandates certain professions (mandated reporters) to make a report to the Missouri Children's Division when they have reasonable cause to suspect that a child has been or may be subjected to abuse or neglect. However, many times the mandated reporter may not suspect abuse or neglect but has some other concern about a family. When the reported concern does not meet the criteria of a report of Child Abuse and Neglect (Investigation or Family Assessment), hotline staff document the concerns and, based on the topic of the call, provide referral contact information, as available, directly to the caller. In short, callers receive the referral contact information directly from the hotline worker, rather than being contacted with it later by someone in the field. This immediate communication regarding available resources to the caller allows for a quicker referral to the family through collaboration with professional partners. This process provides assurance that local offices can respond in the most efficient manner possible to reports that meet the statutory definition of Child Abuse and Neglect. Reports received from mandated reporters are referred to field staff if there is an open case on the family.

Prevention/Treatment Services

Newborn Crisis Assessments and Services

CD collaborates with the Department of Health in conjunction with the Department of Mental Health and the Department of Elementary and Secondary Education to address the increasing problem of substance abusing pregnant women and drug exposed infants. Missouri law requires the Departments of Health, Mental Health, Elementary and Secondary Education, and Social Services (CD) to provide a non-punitive system of educational and treatment services related to the prenatal consumption of alcohol and other drugs. This inter-departmental effort is known as the Perinatal Substance Abuse Advisory Council. This council meets quarterly to discuss issues related to the needs of the drug-exposed infant, substance abusing pregnant woman, assessment process, training, accessing available resources, legislative and policy changes.

In most instances, CD receives a Newborn Crisis Assessment Referral, via the CA/N hotline, from the physician or health care provider, who requests CD to conduct an assessment to determine the caretaker's suitability to care for an infant, or to provide protective services as directed by a physician. Following the completion of the Newborn Crisis Assessment, CD coordinates services with the Department of Health and the Department of Mental Health. Service Coordinators in the Department of Health's Bureau of Special Health Care Needs provide health and developmental screenings throughout their involvement with the family. The Department of Mental Health provides drug treatment services for the substance abusing parent, as well as for the family. In FY 2019, the Division received a total of 5,941 Newborn Crisis Assessment Referrals.

Children reported to the Division for abuse and neglect are sometimes identified during the investigation process as having been exposed prenatally to drugs. In FY 2019, 308 children reported to CANHU were subsequently identified as drug-exposed.

Appendix J. Legal and Methodological Definitions

Legal

The Missouri Child Abuse Law, Section 210.110 RSMo defines:

Abuse as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control, except that discipline including spanking, administered in a reasonable manner, shall not be construed to be abuse. Victims of abuse shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10).

Neglect as failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being. Victims of neglect shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10).

Sex trafficking is defined as the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act.

Severe forms of trafficking in persons is defined as:

(A) Sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or

(B) The recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

Care, custody and control of the child includes, but is not limited to:

- The parents or legal guardians of the child;
- Other members of the child's household;
- Those exercising supervision over a child for any part of a twenty-four hour day;
- Any person who has access to the child based on relationship to the parents of the child or members of the child's household or the family; or
- Any person who takes control of the child by deception, force, or coercion.

Investigation is the collection of physical and verbal evidence to determine if a child has been abused or neglected.

Family assessment and services provides for a prompt assessment of a child and their family when the child has been reported to the CD as a victim of abuse or neglect by a person responsible for that child's care, custody or control. Family assessments include the provision of community-based services to reduce the risk of abuse and neglect and to support the family. This approach takes the place of the traditional investigation.

Appendix J. Legal and Methodological Definitions

Juvenile assessments: As of August 28, 2015 the Children's Division utilizes a family assessment and services approach when reports are received containing concerns of children with problem sexual behaviors. A child with problem sexual behavior is defined as 'any person, under fourteen years of age, who has allegedly committed sexual abuse against another child'. These reports are screened by the Child Abuse and Neglect Hotline Unit when any child under the age of fourteen (14) is alleged to have committed an act of sexual abuse against any person under the age of eighteen (18). Prior to May 2018, non-caretaker referrals, investigations, or traditional assessments may all have met criteria for a juvenile report. In May 2018, CD policy allowed juvenile reports to be treated like Family Assessments and the system was changed to be able to track the report as juvenile.

Differential response assessments are those assessments determined by the family, CD worker and supervisor as needing more intensive work, Its purpose is to provide the family with needed resources, support and services to further promote safety and well-being of the family during the assessment period.

RSMo 210.115. Reports of abuse or neglect, who shall make – When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel that are engaged in the examination, care, treatment, or research of persons, and any other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child care worker, juvenile officer, probation or parole officer, jail or detention center personnel, teacher, principal or other school official, minister as provided by section 352.400, RSMo, peace officer or law enforcement official, or other person with responsibility for the care of children, has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, that person shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.109 to 210.183.

RSMo 352.400 - Christian Science practitioners were added to the definition of ministers with regard to the individuals required to report incidents of suspected child abuse/neglect. Minister is defined as "any person while practicing as a minister of the gospel, clergyperson, priest, rabbi, Christian Science practitioner, or other person serving in a similar capacity for any religious organization who is responsible for or who has supervisory authority over one who is responsible for the care, custody, and control of a child or has access to a child", effective August 28, 2003.

Appendix J. Legal and Methodological Definitions

Statute Changes/Modifications

HB 1092 (FN4666-02) Children's Issues

SB 869 (FN 5745-04T) Child Care Facilities, CHIPS, & Shared Leave for Foster and Adoptive Parents

- *Sections 210.145, 210.152, and 210.183 – Child Abuse and Neglect Investigations* – This bill extends the amount of time the Children's Division (CD) has to complete child abuse and neglect investigations and the amount of time the Children's Division has to provide the alleged perpetrator with written notification of the Children's Division's determination.

Operational

At the end of each child abuse/neglect investigation/assessment, the Children's Service Worker reaches a conclusion.

The following are operational definitions for **Investigative** conclusions:

Substantiated: A finding that abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Service Worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts and those with preponderance of evidence.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the Children's Service Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the Children's Service worker has not identified a specific threat exists for the child.

The following are definitions for **Family Assessment** conclusions:

Agency Responded Refer to FCS or AC Case Opened: The Division responded to the report and at some point during the assessment period referred the family to Family Centered Services (FCS) or the child was taken into custody and Alternative Care (AC) case was opened.

Agency Responded Services Provided: The Division responded to the report and found concerns in the home.

Agency Responded Concerns Addressed: The Division responded to the report and found concerns in the home but those concerns were addressed during the assessment process, community resources or other resources from staff.

Appendix J. Legal and Methodological Definitions

Agency Responded No Concerns Found: The Division responded to the report, assured the safety of the children, spoke with parents/caretaker, made a home visit and found the allegations in the report to have no merit.

Family Declined Services Child Safe: The Division offered to provide Differential Response services but the family refused. CD staff was able to document the child was safe.

Family Uncooperative Child Safe: The Division offered to provide Differential Response services but the family refused. CD staff was able to document the child was safe.

For a small number of reports, the definitions on the previous page are not applicable. Other conclusions for either investigations or assessments include **Unable to Locate, Inappropriate Report, Located Out of State, Home Schooling, Already Investigated, and School Investigation by School Board (Substantiated, Unsubstantiated, Unresolved).**

Methodological

The following are technical definitions used in the computations of the statistics throughout this report:

Reported incident: An allegation of child abuse/neglect made to the hotline which meets the legal definitions for abuse/neglect and for care, custody, and control. A reported incident may involve more than one child and more than one alleged perpetrator. The terms "report," "incident" and "reported incident" are used interchangeably throughout this report.

Incident conclusion: The Children's Service Worker assigns a conclusion for each child and for each alleged perpetrator involved in an incident. If at least one child is substantiated, the incident is considered to be substantiated.

Incident category of abuse/neglect: Up to fifty findings of abuse/neglect can be assigned to each substantiated child. Each incident may have up to six categories of abuse/neglect because each child may be substantiated for different types of abuse/neglect. For incidents involving more than one child, each category of abuse/neglect is counted once if at least one child was substantiated for that category.

Reported child: A child named in a reported incident of child abuse/neglect. A child may be reported more than one time during the year, and unless otherwise indicated, counts of children are duplicated in this report.

Child conclusion: The Children's Service Worker assigns a conclusion for each child involved in an incident. For example, some children in the report may be substantiated while others may be unsubstantiated.

Appendix J. Legal and Methodological Definitions

Child category of abuse/neglect: Each substantiated child may be assigned up to six categories of abuse/neglect.

Alleged perpetrator: A person named as the perpetrator in a reported incident of child abuse/neglect. An alleged perpetrator may be involved in more than one incident during the year. Unless otherwise indicated, counts of alleged perpetrators are duplicated in this report.

Alleged perpetrator conclusion: The Children's Service Worker assigns a conclusion to each alleged perpetrator involved in an incident. One perpetrator in a report may be substantiated while another may be unsubstantiated.

Substantiated perpetrator: When a conclusion of an investigation in which the Division has made a determination of child abuse or neglect by a Preponderance of Evidence in accordance with the law and the allegations against the perpetrator are determined substantiated.
