Child Abuse and Neglect Annual Report Fiscal Year 2023

MICHAEL L. PARSON, GOVERNOR • ROBERT J. KNODELL, DIRECTOR

DARRELL MISSEY, DIRECTOR

CHILDREN'S DIVISION

P.O. BOX 88 • JEFFERSON CITY, MO 65103-0088

WWW.DSS.MO.GOV • 573-522-8448 • 573-526-3971 FAX

Dear Reader:

Thank you for your interest and concern regarding child abuse and neglect in Missouri. This report contains information regarding reports and referrals to the Child Abuse and Neglect Hotline during Fiscal Year 2023, July 1, 2022 through June 30, 2023. It includes the substantiation status of the reports and the number of children and families served by a program within the Missouri Children's Division.

Any questions about the report should be directed to the Children's Division within the Department of Social Services.

Introduction

This report compiles data collected by the Missouri Department of Social Services (DSS), Children's Division (CD), in the course of Child Abuse and/or Neglect (CA/N) investigations/assessments during the fiscal year, July 1, 2022 through June 30, 2023. As a result of pending investigations or changes in conclusions, the data is prone to change. The data reported is current as of January 7, 2024.

The Child Abuse/Neglect Hotline Unit (CANHU) accepts confidential reports of suspected child abuse, neglect, or exploitation. Missouri's toll-free number for reporting child abuse/neglect is **1-800-392-3738**. Mandated reporters can also report online at http://dss.mo.gov/cd/can.htm.

The CANHU is operated year-round on a 24 hours per day, seven days per week basis. It was staffed by 50 full-time and 12 part-time trained and experienced Children's Service Workers during the fiscal year. A call to the hotline is referred to as a "report" or "reported incident" of child abuse/neglect. A report may involve from one to several children. Over the course of the fiscal year, the hotline had received over 61,000 reported incidents that involved over 86,000 children in Missouri.

When a call is received at the CANHU, information is analyzed to determine whether:

- the child is under age 18;
- the alleged perpetrator has care, custody and control of the child;
- the report meets the legal definition of abuse and/or neglect as stipulated in 210.110, RSMo (see Appendix I definitions).

After a report of suspected abuse, neglect, or exploitation has been made to the hotline, the information is forwarded electronically to one of the 114 county offices or the St. Louis City office for either investigation or assessment. A report indicating behavior that may constitute a criminal violation is screened as an investigation and law enforcement is contacted to co-investigate. Reports of child abuse/neglect that do not appear to be of a criminal nature may be responded to as an assessment, where resources or services may be offered to the families to help prevent abuse or to meet a family's specific need. During FY 2023, thirty-eight percent (38.0%) of reports taken by the CANHU were assigned as investigation and fifty-six percent (56.1%) as family assessments. Six percent (5.9%) were assigned as juvenile assessments, where a child under the age of fourteen is alleged to have committed an act of sexual abuse against a person under the age of eighteen.

Investigations/assessments must be initiated within 24 hours, or immediately when it is determined that the child is in imminent danger. When the only allegation is educational neglect, or the allegation is an old allegation and the child is protected, an investigation/assessment must be initiated within 72 hours.

Unless there is good cause, Children's Service Workers complete investigations and family assessments within 45 days of report, and juvenile assessments within 90 days. At the end of each child abuse/neglect investigation/assessment, the Children's Service Worker reaches a conclusion. Of the 86,088 children with reports in FY 2023, 4,347 (5.0%), were substantiated as abused/neglected.

Reports to the Child Abuse/Neglect Hotline

The CANHU received 139,739* hotline calls between July 2022 and June 2023. Of those reports, 61,712 were classified as Investigations or Assessments and involved 86,088 children.

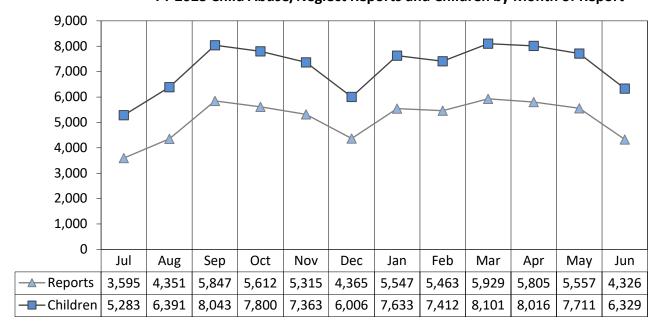

Incidents and Children Reported to the Child Abuse/Neglect Hotline

	Total	Annual	Total	Annual
Year	Reports**	Change	Children***	Change
2019	64,920		89,738	
2020	55,853	-14.0%	78,328	-12.7%
2021	54,515	-2.4%	77,108	-1.6%
2022	58,242	6.8%	80,529	4.4%
2023	61,712	6.0%	86,088	6.9%

^{*}Data provided by CANHU; excludes calls classified as Prior Checks or Other.

Comparing months, March had the highest number, and July the least, of both reported incidents and children. During FY 2023, an average of 5,143 reports involving 7,174 children were made each month.

FY 2023 Child Abuse/Neglect Reports and Children by Month of Report

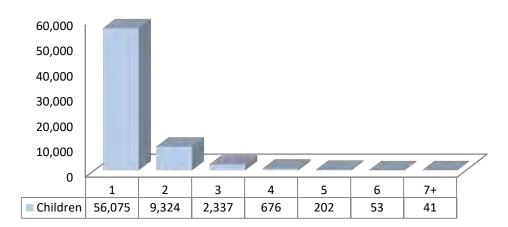

^{**} Total reports include only reports with a Type of Response of Investigation or Assessment and investigated by field staff. Other CANHU reports requiring staff attention or action but do not meet the requirement for Investigation or Assessment are not included in the overall count.

^{***} All counts of children are duplicated because a child may be reported more than once during the year.

Reports

A child may be reported as an alleged victim more than once during the year. A total of 68,708 children had been involved in at least one report during FY 2023, with the majority (81.6%) having only been reported once. More than one call was received for 12,633 children with fourteen percent (13.6%) involved in two reports and five percent (4.8%) involved more than twice.

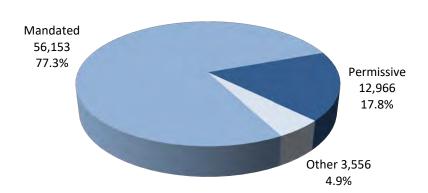

Number of Reported Incidents Per Child during FY 2023

Reporters

Reports of child abuse/neglect can be made by persons who are either "mandated" or "permissive" reporters. More than one reporter may be involved in a report to the hotline.

Mandated reporters are required by state statute to report abuse/neglect when they have reasonable cause to suspect a child has been or is being abused or neglected. Mandated reporters include, but are not limited to, health and education professionals, social workers and law enforcement. The majority of reporters during FY 2023 were mandated reporters.

Permissive reporters, such as relatives or neighbors, are not required to report suspected abuse/neglect.

Type of Child/Abuse Neglect Reporters during FY 2023

Reports

Mandated reporters were more often in the occupations of an education or health profession, law enforcement or social work.

Reporters of Child Abuse/Neglect during FY 2023 by Occupation

	Number	Percent
Permissive	12,966	17.8%
Principal or other school official	10,855	14.9%
Peace Officer or Law Enforcement Official	10,333	14.2%
Social worker	9,547	13.1%
Mental Health Professional	6,501	8.9%
Teacher	5,197	7.2%
Nurse	4,144	5.7%
Unknown	3,556	4.9%
Other Person with Responsibility for Care of Children	3,177	4.4%
Children's Division Worker	1,497	2.1%
Other Health Practitioner	826	1.1%
Juvenile Officer	819	1.1%
Physician	762	1.0%
Day Care center or other childcare worker	715	1.0%
Other Hospital/Clinic Personnel	514	0.7%
Psychologist	290	0.4%
Intern	227	0.3%
Minister	162	0.2%
Probation Officer or Parole Officer	132	0.2%
Medical examiner	126	0.2%
Resident	114	0.2%
Jail/detention personnel and volunteers	62	0.1%
Volunteer/personnel of community service program	61	0.1%
Coroner	49	0.1%
Dentist/dental hygienist	41	0.1%
Chiropractor	1	0.0%
Optometrist	1	0.0%
Podiatrist	0	0.0%

Note: Reporters exceed reports because more than one person may report an incident.

Missouri's Child Protection Services system culminated from a collaborative effort between the Children's Division, elected officials, community organizations and private citizens. Its primary focus is to protect children from abuse/neglect in the least disruptive and intrusive way while recognizing the value of the family. In addition, the child's protection is provided in the most efficient and effective manner possible within the framework of state, community, and family resources.

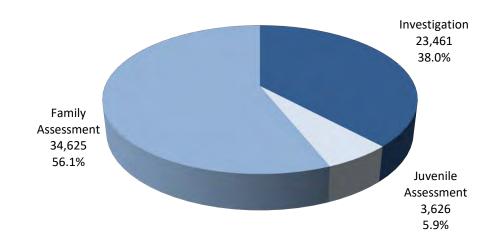

A child abuse/neglect report is screened to determine the appropriate intervention method at the time the report is received by the CANHU. If behaviors that constitute a criminal violation are indicated, the response to the report is a fact-finding investigation and the appropriate local law enforcement agency is notified to assist. The response for remaining reports is a Family Assessment or a Juvenile Assessment for reports of children with problem sexual behavior. The main purpose of an assessment is to determine the child's safety and the family's need for services. Both investigated families and those who receive the assessment response receive prompt and effective delivery of services in order to address their needs.

After the Children's Division worker has made contact with the reported family, or when law enforcement is involved and calls a worker into the field, a report initially assigned as an assessment may change its track to an investigation, or an investigation may be changed to an assessment track.

Around five percent of investigation tracks were later changed to assessments, and three percent of assessments were later tracked as investigations.

	Track at time of call	Changed Track	Final Track
Investigation	23,468	1,204	23,461
Family Assessment	34,623	1,194	34,625
Juvenile Assessment	3,621	6	3,626

Children's Service Workers investigate or assess each report to determine if abuse/neglect is occurring or has occurred and evaluate the family's need for services. Thorough investigations/assessments require hours of interviews and information collection, and usually include the following major steps.

- Contacting the reporter, if known, for additional information before proceeding with the investigation;
- Contacting appropriate law enforcement personnel or multidisciplinary team members to request a co-investigation if the alleged report, if true, would constitute a violation of the law;
- Making a determination regarding the safety of the children within 24 hours, or immediately if deemed as an emergency;
- Contacting the School District Liaison when the victim in the child abuse/neglect report is school-aged;
- Determining the safety of all other children in the household within 72 hours;
- Consulting with the Chief Investigator within 72 hours;
- Contacting collateral persons;
- Interviewing witnesses;
- Interviewing the non-offending parent;
- Interviewing the alleged perpetrator(s);
- Evaluating and documenting all information collected and observed;
- Determining whether abuse/neglect has occurred or is occurring;
- Evaluating the family's need for services and making appropriate referrals for needed services;
- Notifying the child's parent(s), alleged perpetrator and, if applicable, school district liaison and the mandated reporter of the report conclusion and related findings.

Observed Family Characteristics

Children's Service Workers may designate up to fifteen Observed Family Characteristics during each family assessment/investigation. Services and supports for families are designed to build on the strengths and resources of the families and communities.

The most often cited family characteristics during assessments and also during investigations included adequate living conditions, extended family support systems and community/cultural support.

Characteristics of Families Involved in Family Assessments during FY 2023

	Number	Percent
Adequate Living Conditions	9,554	25.0%
Extended Family Support System	7,645	20.0%
Community/Cultural Support	7,511	19.6%
Single Parent Household	6,110	16.0%
Appropriate Parenting Skills	5,072	13.3%
Amenable to Services	4,895	12.8%
Appropriate Child Development Knowledge	4,425	11.6%
Problem Solving Skills	3,610	9.4%
Stable Family Relationships/Household	2,993	7.8%
No History of Violence	1,534	4.0%
Good Physical/Mental Health	1,345	3.5%
Stable Marriage	1,023	2.7%
Manages Finances Well	893	2.3%
Other Drug Related Problem(s)	596	1.6%
Domestic Violence	585	1.5%
Lack of Parenting Skills	547	1.4%
New Baby in Home/Pregnancy	484	1.3%
Heavy Continuous Childcare Responsibility	351	0.9%
Recent/Frequent Relocation	300	0.8%
Crowded Living Conditions	284	0.7%
Marital Problems	258	0.7%
Positive Childhood Experiences	253	0.7%
Recent Loss/Addition to Household Members	251	0.7%
Alcohol Related Problem(s)	238	0.6%
Insufficient/Misuse of Income	229	0.6%
Homelessness	202	0.5%
Dangerous Living Conditions	180	0.5%
Loss of Employment	125	0.3%
Social Isolation	95	0.2%
Teen Parent(s)	84	0.2%
Lack of Utilities	75	0.2%
Illness	60	0.2%
Role Reversal	33	0.1%
Incapacity due to Physical Handicap	27	0.1%
Intellectual Disability	16	0.0%

Percent is the percentage of 38,251 reports tracked as Family Assessments or Juvenile Assessments.

Percent total is greater than 100 because up to 15 family characteristics may be reported for each assessment.

Characteristics of Families Involved in Investigations during FY 2023

	Number	Percent
Adequate Living Conditions	5,041	21.5%
Extended Family Support System	4,560	19.4%
Community/Cultural Support	3,824	16.3%
Single Parent Household	2,990	12.7%
Amenable to Services	2,858	12.2%
Appropriate Parenting Skills	2,360	10.1%
Appropriate Child Development Knowledge	2,148	9.2%
Problem Solving Skills	1,773	7.6%
Stable Family Relationships/Household	1,588	6.8%
No History of Violence	817	3.5%
Manages Finances Well	777	3.3%
Other Drug Related Problem(s)	691	2.9%
Stable Marriage	666	2.8%
Good Physical/Mental Health	659	2.8%
Lack of Parenting Skills	659	2.8%
Domestic Violence	526	2.2%
New Baby in Home/Pregnancy	294	1.3%
Alcohol Related Problem(s)	254	1.1%
Dangerous Living Conditions	252	1.1%
Marital Problems	247	1.1%
Recent Loss/Addition to Household Members	225	1.0%
Recent/Frequent Relocation	216	0.9%
Heavy Continuous Childcare Responsibility	203	0.9%
Positive Childhood Experiences	190	0.8%
Insufficient/Misuse of Income	182	0.8%
Crowded Living Conditions	152	0.6%
Homelessness	127	0.5%
Loss of Employment	83	0.4%
Social Isolation	81	0.3%
Teen Parent(s)	74	0.3%
Lack of Utilities	50	0.2%
Role Reversal	32	0.1%
Illness	20	0.1%
Incapacity due to Physical Handicap	13	0.1%
Intellectual Disability	9	0.0%

Percent is the percentage of 23,461 reports tracked as Investigations.

Percent total is greater than 100 because up to 15 family characteristics may be reported for each assessment.

Unless there is good cause, investigations and assessments should be closed within 45 days. Juvenile assessments are usually completed within 90 days. Upon completion of the investigation, a report may be concluded as Substantiated, Unsubstantiated-Preventive Services Indicated (PSI), Unsubstantiated, or Assessment.

Substantiated: A finding that a preponderance of evidence exists to conclude abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Service Worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the Children's Service Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the Children's Service Worker has not identified a specific threat exists for the child.

Conclusions categorized as Other include unable to locate, inappropriate report, located out of state, home schooling, already investigated, school investigation by school board, or the report has not yet been concluded. See Appendix J for further definition.

Reported Incidents and Children by Conclusion

Five percent of incidents (4.9%) and of children (5.0%) were concluded as substantiated, consistent with past years.

Reported Incidents and Children by Conclusion

Conclusions are as follows:

- Substantiated Court Adjudicated and Preponderance of Evidence;
- Unsub.-PSI Unsubstantiated-Preventive Services Indicated;
- Unsub. Unsubstantiated;
- Assessment: Agency Responded Refer to FCS or AC Case Opened, Agency Responded No Concerns Found, Family Uncooperative Child Safe, Agency Responded Services Provided, Family Declined Services Child Safe, and Agency Responded Concerns Addressed;
- Other Unable to Locate, Inappropriate Report, Located Out of State, Already Investigated, Home Schooling, Not Concluded

Assessment Conclusions

The majority of CANHU reports were concluded as assessments. The goal of this approach is to assure child safety, address the strengths of the family, and to identify and treat the family's needs.

Family Assessments and Juvenile Assessments are concluded as the agency responded and either provided services, addressed concerns, or no concerns were found; or where the child is safe but the family refused services or refused to participate in the assessment process.

Reported Incidents and Children by Assessment Conclusion

For reports concluded as assessments during FY 2023, the majority had concerns addressed or there were no concerns found.

Reported Incidents by Assessment Conclusion

Substantiated Children by Category of Abuse/Neglect

During FY 2023, 4,347 children were involved in incidents that were concluded as substantiated for abuse and/or neglect. When a Children's Service Worker determines there is preponderance of evidence that abuse/neglect has occurred, up to six categories of abuse/neglect can be assigned to each child. Neglect was the most prevalent substantiated category during FY 2023 investigations.

Substantiated Children by Category of Abuse/Neglect during FY 2023

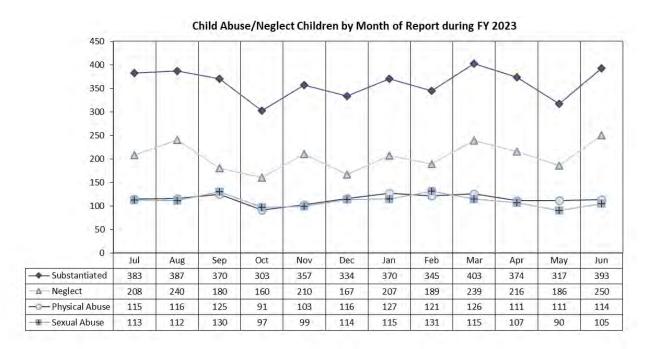

Substantiated Children by Category of Abuse/Neglect during FY 2023

	Number	Percent
Neglect	2,305	53.0%
Sexual Abuse	1,257	28.9%
Physical Abuse	1,077	24.8%
Emotional Abuse	409	9.4%
Medical Neglect	101	2.3%
Educational Neglect	58	1.3%

Percent is the percentage of 4,347 total substantiated children. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

March had the highest number of substantiated abused/neglected children (402) during the fiscal year while October had the least (300). June saw the highest incidence of neglect (246), February had the highest incidence of sexual abuse (124), and July had the highest for physical abuse (99).

In addition to assigning categories of abuse or neglect, a Children's Service Worker may also describe up to fifty specific findings of abuse. For neglected children, the most frequent worker descriptions are those typically associated with neglect, such as a lack of supervision and unsafe or inadequate shelter. The ten most frequently reported worker findings for neglected children are shown below.

Worker Findings for Neglected Children during FY 2023

	Number	Percent
Lack of supervision	1,668	72.4%
Unsafe/Inadequate shelter	453	19.7%
Unsanitary living conditions	392	17.0%
Failure to protect	286	12.4%
Blaming, verbal abuse, threatening	172	7.5%
Other physical abuse or injury	127	5.5%
Bruises, welts, red marks	121	5.2%
Other sexual abuse	86	3.7%
Inappropriately giving drugs	77	3.3%
Untreated illness/injury	66	2.9%

Percent is the percentage of 2,305 substantiated neglected children. Percent total is greater than 100 because multiple findings may be found for a child.

For physically abused children, the most frequently reported worker findings were bruises, welts or red marks along with other abuse or injury. Lack of supervision was also cited quite often, suggesting that neglect may occur in some abusive situations. The ten most often reported worker findings for physically abused children are shown below.

Worker Findings for Physically Abused Children during FY 2023

	Number	Percent
Bruises, welts, red marks	581	53.9%
Other physical abuse or injury	519	48.2%
Lack of supervision	191	17.7%
Abrasions, lacerations	170	15.8%
Inappropriately giving drugs	147	13.6%
Blaming, verbal abuse, threatening	100	9.3%
Failure to Protect	94	8.7%
Fractures	64	5.9%
Other sexual abuse	47	4.4%
Unsanitary living conditions	45	4.2%

Percent is the percentage of 1,077 substantiated physically abused children. Percent total is greater than 100 because multiple findings may be found for a child.

Other sexual abuse and fondling/touching were the most frequent worker findings for sexually abused children. Following are the ten most often reported worker findings for sexually abused children.

Worker Findings for Sexually Abused Children during FY 2023

	Number	Percent
Other sexual abuse	729	58.0%
Fondling/Touching	601	47.8%
Intercourse	313	24.9%
Oral sex, sodomy	228	18.1%
Digital penetration	145	11.5%
Pornography	88	7.0%
Lack of supervision	70	5.6%
Failure to protect	60	4.8%
Blaming, verbal abuse, threatening	48	3.8%
Inappropriately giving drugs	47	3.7%

Percent is the percentage of 1,257 substantiated sexually abused children. Percent total is greater than 100 because multiple findings may be found for a child.

Observed Family Characteristics

Information gathered during an investigation of child abuse/neglect can help identify factors which place a child at risk for abuse/neglect. In addition to establishing an investigative conclusion for each child, Children's Service Workers may designate up to four Observed Family Characteristics for each reported incident. These characteristics may indicate which services could help prevent the recurrence of abuse/neglect. It is important to note that these are not absolute counts. For instance, a problem with alcohol or other drugs may be difficult to detect during the course of an investigation.

The majority of families involved in substantiated incidents had an extended family support and adequate living conditions. The top twenty family characteristics are listed below.

Characteristics of Families Involved in Substantiated Incidents during FY 2023

	Number	Percent
Extended Family Support System	1,055	34.7%
Adequate Living Conditions	778	25.6%
Single Parent Household	636	20.9%
Amenable to Services	609	20.0%
Community/Cultural Support	606	19.9%
Other Drug Related Problem(s)	472	15.5%
Lack of Parenting Skills	426	14.0%
Domestic Violence	284	9.3%
Appropriate Child Development Knowledge	259	8.5%
Appropriate Parenting Skills	236	7.8%
Problem Solving Skills	236	7.8%
Stable Family Relationships/Household	226	7.4%
Manages Finances Well	203	6.7%
Dangerous Living Conditions	197	6.5%
No History of Violence	175	5.8%
Alcohol Related Problem(s)	173	5.7%
Stable Marriage	134	4.4%
Insufficient/Misuse of Income	120	3.9%
Marital Problems	108	3.6%
New Baby in Home/Pregnancy	102	3.4%

Percent is the percentage of 3,041 total substantiated incidents. Percent total is greater than 100 because up to four family characteristics may be reported per incident.

Demographics of Substantiated Children

Of the substantiated children during FY 2023, over half (58.6%) were female and forty percent (41.4%) were male. More sexually abused children were female. Neglect was more prevalent among younger children while sexual abuse occurred more often among older children.

Child Abuse/Neglect Children during FY 2023 by Category of Abuse

Child Abuse/Neglect Fatalities

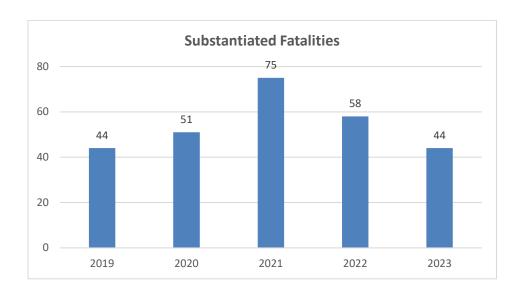

Missouri has a strong capacity to become aware of fatalities resulting from child abuse/neglect. If the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner, or physician are required to notify the division of the child's death. In all other cases, the medical examiner or coroner accepts the report for investigation, immediately notifies the division of the child's death as required under section 58.452, RSMo, and reports the findings to the child fatality review panel established pursuant to section 210.192,RSMo.

Child Abuse and Neglect fatalities reported by the Children's Division include fatalities of children under the age of 18 for which a report of child abuse and neglect has been received by CANHU and which are classified as substantiated based on a Preponderance of the Evidence evidentiary standard of proof as stipulated in 210.110, RSMo.

In Missouri, there are three entities within state government responsible for child fatality information: Department of Health and Senior Services' Bureau of Vital Statistics, Department of Social Services Children's Division and the Child Fatality Review Program. All three exchange and match child fatality data in order to ensure accuracy throughout the system. However, the Bureau of Vital Statistics, Children's Division and the Child Fatality Review Program serve very different functions and, therefore, different classifications and timing periods apply, when child fatality data is reported. Therefore, totals included in this report may differ from totals reported by the other entities.

The number of fatalities reported during any given year may change as a result of pending investigations, changes in conclusions and deaths not reported in a timely manner. During fiscal year 2023, 44 children died as a result of child abuse/neglect.

The following chart represents the number of child fatalities for fiscal years 2019 to 2023, when abuse and/or neglect was associated with the child's death.

Types of abuse most often found to be substantiated in CA/N fatalities were neglect and physical abuse.

Substantiated Fatalities by Category of Abuse/Neglect during FY 2023

	Number	Percent
Neglect	40	90.9%
Physical Abuse	13	29.5%
Medical Neglect	6	13.6%
Emotional Abuse	1	2.3%
Sexual Abuse	0	0.0%

Percent is the percent of the 44 substantiated fatalities. Percent total is greater than 100 because a child may be substantiated for up to six categories of abuse/neglect.

Of the children who died as a result of abuse or neglect in FY 2023, the majority were under the age of one, male and white.

Substantiated Fatalities during FY 2023

Age	Number	Percent
0	21	47.7%
1	5	11.4%
2	8	18.2%
3	5	11.4%
5	1	2.3%
6	2	4.5%
9	1	2.3%
14	1	2.3%

Total	44	100.0%

Perpetrators

Perpetrator Demographics

For FY 2023 substantiated reports, the majority of perpetrators were white, male and between ages 20 and 49.

Substantiated Perpetrators during FY 2023

Age	Number	Percent
<20	159	3.9%
20-29	1,008	25.0%
30-39	1,419	35.1%
40-49	719	17.8%
50-59	269	6.7%
60-69	113	2.8%
70+	41	1.0%
Unknown	310	7.7%
Total	4,038	100.0%

Race	Number	Percent
White	2,986	73.9%
Black	465	11.5%
Other/unknown	587	14.5%
Total	4,038	100.0%

Sex	Number	Percent
Female	1,423	35.2%
Male	2,353	58.3%
Unknown	262	6.5%
Total	4,038	100.0%

During the report year, a substantiated perpetrator may be involved in more than one incident and in more than one relationship type. A natural parent and parent's partner accounted for the majority of substantiated perpetrators involved in an investigation.

Substantiated Perpetrators by Relationship to Child during FY 2023

	#
Natural parent	3,226
Parent/Caretaker`s Partner	488
Step-parent	349
Grandparent	258
Aunt/Uncle/Cousin	235
Friend	150
Sibling/half, step-sibling	85
Adoptive Parent	81
No Relationship Exists	68
Institution/staff	46
Day care provider	44
Alleged Father	38
School/personnel	39
Other caregiver	34
Natural child	32
Neighbor	29
Legal Guardian	26
Other relative	29
Foster parent	22
Putative Father	10
Other	863

Perpetrators

Observed Perpetrator Characteristics

Children's Service Workers may indicate up to four Observed Perpetrator Characteristics for each substantiated perpetrator of child abuse/neglect. These characteristics are used to assist in determining which services may be beneficial to a family. For instance, if perpetrators have unrealistic expectations of children, providing information on child development can help teach more appropriate disciplinary techniques.

Characteristics of Substantiated Perpetrators during FY 2023

	Number	Percent
Other Drug Related Problem(s)	776	19.2%
No Apparent Mental/Emotional Disturbance	614	15.2%
Mental/Emotional Disturbance	518	12.8%
Adequate Support System	519	12.9%
History of Criminal Behavior	514	12.7%
Alcohol Related Problem(s)	314	7.8%
Amenable to Services	314	7.8%
Pattern of Violent Behavior	286	7.1%
Unemployed	263	6.5%
Unrealistic Expectations of Child	209	5.2%
Loss of Control During Discipline	181	4.5%
Parental History of Abuse/Neglect as a Child	175	4.3%
High School Education or Higher	175	4.3%
Financial Problems	165	4.1%
Immaturity	150	3.7%
Undetermined	137	3.4%
Low Self Esteem	102	2.5%
No One to Call on in Time of Crisis	77	1.9%
Institutional Report/Unknown Perpetrator	47	1.2%
Less than High School Education	27	0.7%
Illness	18	0.4%
Intellectual Disability	11	0.3%
Incapacity Due to Physical Handicap	7	0.2%
Other	65	1.6%

Percentage is the percentage of 4,038 substantiated perpetrators. Percent total is greater than 100 because a worker may list up to four characteristics for each perpetrator.

Prevention/Treatment Services

The Children's Division has several programs designed to provide treatment and to help prevent future occurrences of child abuse and neglect.

Family-Centered Services (FCS)

FCS are provided to families and children in their own homes when a child abuse/neglect investigation has been concluded Substantiated, Unsubstantiated-Preventive Services Indicated or Family Assessment has determined services are needed. These services are also provided to families who voluntarily seek help and to families whose children are placed out of the home. The primary purpose of FCS is to improve and maintain the family unit or to reunify the family when alternative care services are provided. Upon a family-centered assessment to identify risk issues, family strengths and service needs, a family treatment plan is developed with the family to help them change the conditions which brought them to the attention of CD. Services are designed to help the family direct their own affairs and provide suitable care for the children. The family treatment plan determines whether services are provided by CD staff and/or purchased or provided by community agencies. Purchased services include day care, family and/or individual counseling, home-based family-centered services, evaluation and diagnosis, homemaker services and respite care, among others. During FY 2023, 81 of the 3,040 FCS cases opened were the result of substantiated child abuse/neglect.

Intensive In-Home Services (IIS)

IIS is designed to prevent unnecessary out-of-home placement of children. An in-home specialist provides a variety of services to the entire family to address the crisis that would normally necessitate out-of-home care for a child. Services are delivered immediately at the time of crisis and are time-limited, usually four to six weeks. In-home specialists carry small caseloads of two families. This enables them to spend as much time with the family as needed. The emphasis of IIS is on strengthening the entire family by improving its problem-solving capabilities and teaching them necessary life skills. Among other services, families may receive family therapy, individual and marital counseling, parenting education, child development training, household maintenance and nutritional training, job readiness training and referrals to other community resources. Families authorized for IIS may have children who have been abused or neglected, have committed a status offense, have displayed delinquent behavior, or who are seriously emotionally disturbed and are at imminent risk of being removed from the home. This service is voluntary and at least one caretaker must be willing to participate.

Out-of-Home Placement

Out-of-home care is provided in situations where a caregiver(s) is incapable of providing a child or children with adequate social, emotional and physical care. Out-of-home is defined as care provided in licensed foster or approved relative family homes or kinship care, in licensed residential facilities, or in licensed foster group homes. The service provides substitute settings for children. Children are placed only after it is determined that they cannot remain at home.

Prevention/Treatment Services

Child Care

Assistance with child care services through payment of full or partial cost for eligible families is based on a sliding scale fee system. The primary purpose of the subsidized child care program is to enable families to obtain and retain employment, or the skills necessary to obtain employment, with the ultimate goal of breaking the cycle of poverty. Child care is to be considered an on-going benefit to the family's efforts of self-sufficiency. Additionally, protective services child care is available for children who are receiving preventive services or treatment for child abuse/neglect as part of the family's treatment plan.

Crisis Nurseries

Crisis nurseries are child care facilities which protect children by providing a safe environment at a time when the chances of abuse/neglect in the home are increased. Parents voluntarily request and arrange this service directly with the crisis nursery.

Child Abuse/Neglect Review Board

Children's Service Workers reach a conclusion on each child abuse/neglect investigation and notify the parents and alleged perpetrator (if different than the parents) by letter of the conclusion. In some investigations where the conclusion is substantiated, the alleged perpetrator may disagree with the finding. The alleged perpetrator may appeal to the Child Abuse/Neglect Review Board for review of the investigation by contacting the local CD office within 60 days of the notification of the finding. If there are pending criminal charges, the request may be made 60 days from the court's final disposition or dismissal of charges. If convicted, there is no appeal.

The Child Abuse/Neglect Review Board consists of six boards of nine private citizens appointed by the Governor. These boards each meet monthly to review child abuse/neglect appeals. They listen to testimony from CD staff, the alleged perpetrator, and representatives of the child and then decide to uphold or reverse the original CD decision. During FY 2023, the review board heard 501 cases and 390 were upheld (77.8%). Following the Child Abuse and Neglect Review Board's disposition, the alleged perpetrator has 60 days to request a judicial review.

Calls from Reporters

When a reported concern does not meet the criteria of a report of Child Abuse and Neglect (Investigation or Assessment), hotline staff document the concerns and, based on the topic of the call, provide referral contact information, as available, directly to the caller. In short, callers receive the referral contact information directly from the hotline worker rather than being contacted with it later by someone in the field. This immediate communication regarding available resources to the caller allows for a quicker referral to the family through collaboration with professional partners. This process provides assurance that local offices can respond in the most efficient manner possible to reports that meet the statutory definition of Child Abuse and Neglect. Reports received from reporters are referred to field staff if there is an open case on the family.

Prevention/Treatment Services

Newborn Crisis Assessments and Services

CD collaborates with the Department of Health in conjunction with the Department of Mental Health and the Department of Elementary and Secondary Education through various workgroups and initiatives to address the increasing problem of substance abusing pregnant women and drug exposed infants. Missouri law requires the Departments of Health, Mental Health, Elementary and Secondary Education, and Social Services (CD) to provide a non-punitive system of educational and treatment services related to the prenatal consumption of alcohol and other drugs. On July 22, 2016, (P.L. 114-198) The Comprehensive Addiction and Recovery Act (CARA) established a comprehensive, coordinated, balanced strategy through enhanced grant programs that would expand prevention and education efforts while also promoting treatment and recovery. CARA amended sections of the Child Abuse Prevention Treatment Act (CAPTA) to remove the term "illegal" as applied to substance abuse affecting the identified infant and to specifically require that Plans of Safe Care address the needs of both infants and their families/caretakers.

In most instances, CD receives a Newborn Crisis Assessment, via the CA/N hotline, from the physician or health care provider, who requests CD to conduct an assessment to determine the caretaker's ability to care for an infant, or to provide protective services as directed by a physician. A physician or healthcare provider may also report non-drug related concerns about releasing a newborn from the hospital. Newborn Crisis Assessments are accepted until the child is one year of age if seen by a medical professional within the previous twenty-four hours of reporting.

In FY 2023, the Division received a total of 5,726 Newborn Crisis Assessment calls to CANHU. Children reported to the Division for abuse and neglect are sometimes identified during the investigation process as having been exposed prenatally to drugs. In FY 2023, 279 children reported to CANHU were subsequently identified as drug-exposed.

Legal

The Missouri Child Abuse Law, Section 210.110 RSMo defines:

Abuse as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control, except that discipline including spanking, administered in a reasonable manner, shall not be construed to be abuse. Victims of abuse shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10).

Neglect as failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being. Victims of neglect shall also include any victims of sex trafficking or severe forms of trafficking as those terms are defined in 22 U.S.C. 78 Section 7102(9)-(10).

Sex trafficking is defined as the recruitment, harboring, transportation, provision, obtaining, patronizing, or soliciting of a person for the purpose of a commercial sex act.

Severe forms of trafficking in persons is defined as:

- (A) Sex trafficking in which a commercial sex act is induced by force, fraud, or coercion, or in which the person induced to perform such act has not attained 18 years of age; or
- (B) The recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

Care, custody and **control** of the child includes, but is not limited to:

- The parents or legal guardians of the child;
- Other members of the child's household;
- Those exercising supervision over a child for any part of a twenty-four hour day;
- Any person who has access to the child based on relationship to the parents of the child or members of the child's household or the family; or
- Any person who takes control of the child by deception, force, or coercion.

Investigation is the collection of physical and verbal evidence to determine if a child has been abused or neglected.

Family assessment and services provides for a prompt assessment of a child and their family when the child has been reported to the CD as a victim of abuse or neglect by a person responsible for that child's care, custody or control. Family assessments include the provision of community-based services to reduce the risk of abuse and neglect and to support the family. This approach takes the place of the traditional investigation.

Juvenile assessments: As of August 28, 2015 the Children's Division utilizes a family assessment and services approach when reports are received containing concerns of children with problem sexual behaviors. A child with problem sexual behavior is defined as 'any person, under fourteen years of age, who has allegedly committed sexual abuse against another child'. These reports are screened by the Child Abuse and Neglect Hotline Unit when any child under the age of fourteen (14) is alleged to have committed an act of sexual abuse against any person under the age of eighteen (18). Prior to May 2018, non-caretaker referrals, investigations, or traditional assessments may all have met criteria for a juvenile report. In May 2018, CD policy allowed juvenile reports to be treated like Family Assessments and the system was changed to be able to track the report as juvenile.

RSMo 210.115. Reports of abuse or neglect, who shall make – When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel that are engaged in the examination, care, treatment, or research of persons, and any other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child care worker, juvenile officer, probation or parole officer, jail or detention center personnel, teacher, principal or other school official, minister as provided by section 352.400, RSMo, peace officer or law enforcement official, or other person with responsibility for the care of children, has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, that person shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.109 to 210.183.

RSMo 352.400 - Christian Science practitioners were added to the definition of ministers with regard to the individuals required to report incidents of suspected child abuse/neglect. Minister is defined as "any person while practicing as a minister of the gospel, clergyperson, priest, rabbi, Christian Science practitioner, or other person serving in a similar capacity for any religious organization who is responsible for or who has supervisory authority over one who is responsible for the care, custody, and control of a child or has access to a child", effective August 28, 2003.

Statute Changes/Modifications

HB 1092 (FN4666-02) Children's Issues SB 869 (FN 5745-04T) Child Care Facilities, CHIPS, & Shared Leave for Foster and Adoptive Parents

• Sections 210.145, 210.152, and 210.183 – Child Abuse and Neglect Investigations – This bill extends the amount of time the Children's Division (CD) has to complete child abuse and neglect investigations and the amount of time the Children's Division has to provide the alleged perpetrator with written notification of the Children's Division's determination.

Operational

At the end of each child abuse/neglect investigation/assessment, the Children's Service Worker reaches a conclusion.

The following are operational definitions for **Investigative** conclusions:

Substantiated: A finding that abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Service Worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This includes cases which are adjudicated by the courts and those with preponderance of evidence.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the Children's Service Worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

Unsubstantiated: A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the Children's Service worker has not identified a specific threat exists for the child.

The following are definitions for **Assessment** conclusions:

Agency Responded Refer to FCS or AC Case Opened: The Division responded to the report and at some point during the assessment period referred the family to Family Centered Services (FCS) or the child was taken into custody and Alternative Care (AC) case was opened.

Agency Responded Services Provided: The Division responded to the report and found concerns in the home.

Agency Responded Concerns Addressed: The Division responded to the report and found concerns in the home but those concerns were addressed during the assessment process, community resources or other resources from staff.

Agency Responded No Concerns Found: The Division responded to the report, assured the safety of the children, spoke with parents/caretaker, made a home visit and found the allegations in the report to have no merit.

Family Declined Services Child Safe: The Division offered to provide Differential Response services but the family refused. CD staff was able to document the child was safe.

Family Uncooperative Child Safe: The Division offered to provide Differential Response services but the family refused. CD staff was able to document the child was safe.

For a small number of reports, the definitions on the previous page are not applicable. Other conclusions for either investigations or assessments include **Unable to Locate**, **Inappropriate Report**, **Located Out of State**, **Home Schooling**, **Already Investigated**, and **School Investigation by School Board (Substantiated, Unsubstantiated, Unresolved).**

Methodological

The following are technical definitions used in the computations of the statistics throughout this report:

Reported incident: An allegation of child abuse/neglect made to the hotline which meets the legal definitions for abuse/neglect and for care, custody, and control. A reported incident may involve more than one child and more than one alleged perpetrator. The terms "report," "incident" and "reported incident" are used interchangeably throughout this report.

Incident conclusion: The Children's Service Worker assigns a conclusion for each child and for each alleged perpetrator involved in an incident. If at least one child is substantiated, the incident is considered to be substantiated.

Incident category of abuse/neglect: Up to fifty findings of abuse/neglect can be assigned to each substantiated child. Each incident may have up to six categories of abuse/neglect because each child may be substantiated for different types of abuse/neglect. For incidents involving more than one child, each category of abuse/neglect is counted once if at least one child was substantiated for that category.

Reported child: A child named in a reported incident of child abuse/neglect. A child may be reported more than one time during the year, and unless otherwise indicated, counts of children are duplicated in this report.

Child conclusion: The Children's Service Worker assigns a conclusion for each child involved in an incident. For example, some children in the report may be substantiated while others may be unsubstantiated.

Child category of abuse/neglect: Each substantiated child may be assigned up to six categories of abuse/neglect.

Alleged perpetrator: A person named as the perpetrator in a reported incident of child abuse/neglect. An alleged perpetrator may be involved in more than one incident during the year. Unless otherwise indicated, counts of alleged perpetrators are duplicated in this report.

Alleged perpetrator conclusion: The Children's Service Worker assigns a conclusion to each alleged perpetrator involved in an incident. One perpetrator in a report may be substantiated while another may be unsubstantiated.

Substantiated perpetrator: When a conclusion of an investigation in which the Division has made a determination of child abuse or neglect by a Preponderance of Evidence in accordance with the law and the allegations against the perpetrator are determined substantiated.
